COUNCIL CAUCUS.

According to party usage, the Republican members of the City Council will assemble to-night at the Chamber of the Common branch, in caucus meeting, to nominate candidates for the various offices within the gift of that body. It is to be hoped that there will be full attendance on the part of those permitted to participate in the proceedings.

O'CONNOR vs. TACK.

We publish in full to-day the decision rendered by Judge LUDLOW, of the Philadelphia Court of Quarter Sessions, all of his three Associates on the bench assenting, in the very important case of the Commonwealth vs. Tack Brothers, an application made by them on a writ of *habeas corpus* to be discharged from custody in criminal action charging conspiracy, preferred against them by Mr. JAMES O'CONNOR, of this city. While we have no desire to enter into any discussion pertaining to the merits of the case, we feel that it is due to Mr. O'CONNOR to give publicity entire to the decision, as it is so closely interwoven with his own standing and commercial character in this community. At the inception of this legal duel between Mr. O'CONNOR and the Messrs. TACK, the public expectation and sympathy were shaped decidedly in favor of the defendants. A variety of circumstances prevailed to induce such opinion, not the least of which were the remarkable shrewdness and financial ability of the prosecutor, who holds place amongst the first financiers of the country, and the high standing of the defendants. These respective merits of the contestants led the public to believe that Mr. O'CONNOR was too shrewd to be caught by speculative combinations, while the Messrs. TACK were too honorable to involve him as their creditor and friend in any business speculation which they knew would work immense disaster to his pecuniary interests. The public, especially that part interested in the stock jobbing and petroleum trade, have anxiously awaited the fresh developments of the intricate case, and day by day the tide of opinion has been setting more in favor of the prosecutor, and from perusal of the documents bearing on the case the community are not unprepared for the decision just rendered. In the only light which the case can be viewed now, taking the *ex parte* evidence and the unanimous decision of the Court, it must appear that Mr. O'CONNOR has just grounds for believing that the defendants transcended their duties and obligations as his agents, and operated in a manner prejudicial to his interests, when they should have pursued the directly opposite course. Thus far Mr. O'CONNOR, sustained by the Court in the preliminary proceedings, has the advantage, let future developments be what they may.

THE RECENT LOCK-OUT.

MESSRS. EDITORS: The editor of the GAZETTE, (F. B. P.) writing from Harrisburg, speaks of Mr. McCamant as if he had been the candidate of the Bolters for Speaker, up to the end, and leaves the impression that they had continued to vote for him after he (on the last day of the balloting) had declared himself against the Connellsville R'ad. In this he does them a slight injustice, which is altogether, I am sure, unintentional on his part.

The Bolters voted for Mr. McCamant on only a few ballots. They then changed to Mr. Ewing, of Washington, and, when he declined, to Mr. Mann, of Potter—both strong Connellsville Railroad men.

I do not undertake to justify the Bolters, in any wise, but this correction is fairly due to them. JUSTICE.

REMARKS.—The dissenters voted for Mr. McCAMANT so long as that gentleman permitted the use of his name. When he saw political ruin staring him in the face and that there was no chance to defeat Mr. DAVIS, he withdrew, and the bolters selected on Mr. EWING as the next best man to destroy by their preference. He too withdrew, and the bolters then voted for any body rather than permit the organization to be effected by the selection, in accordance with party usages, of the caucus nominees. Had Mr. McCAMANT permitted the use of his name, we believe, the bolters would have united their strength on him, even up to this time, and they certainly knew from the beginning that he was not truer to Free Railroad interests than Mr. DAVIS. Their case is a bad one, from whatever point we may view it, and all that has thus far been said regarding their unwise conduct savored more of leniency than of just severity.

STATE NEWS.

—A new meeting house, costing $3,100, was dedicated at Riddles X Roads, last month. It is said to be one of the neatest in Butler county.

—New Castle has had several weeks of theatrical performance. So has Meadville, where Sherry's excellent troupe has been performing.

—Most of our State exchanges contain accounts of liberal donation visits made to the various pastors of the various towns during the holidays. We are glad to see that such visits have been very numerous this year.

—The *Raftsman's Journal* of Clearfield says: In consequence of the sudden disappearance of the snow, last week, all timber operations ceased, and at present, the prospect for getting out anything like the usual quantity is rather problematical.

—Two little boys at Conneautville, named Henry Frazer, aged ten years, son of Dr. J. B. Frazer, and George F. Mantor, were drowned in a brick yard pond on Monday, the 30th ult. They were skating together, when the first mentioned broke through the ice. The latter, in his endeavor to help his playmate out, also broke through, and both lives were lost. This sad calamity should serve as a warning to parents against permitting children to go upon ice when it is in a treacherous condition.

—The old grist mill at Spring, owned by Christy & Cook, was burned to the ground on the morning of December 28. Mr. Christy and his family resided in the mill, and they had barely time to escape. The father of Mr. Christy, an old man, who was one of the family, returned to the burning mill for some purpose, and and was not seen again till the fire had been reduced, when his remains were discovered among the ruins. It is probable that he was injured by a falling rafter or suffocated by smoke.—*Meadville Journal.*

—We learn from the Gettysburg *Star* that, on the 31st ult., Ann Maria Strasbaugh, aged twenty-four years, daughter of Charles Strasbaugh, of Hamiltonian township, was burned to death. The deceased was of weak mind, and had been temporarily left by herself in the kitchen while Mrs. Strasbaugh went to the barn to milch some cows, Mr. S. being absent from home. It is supposed that by some means her clothing took fire from the kitchen stove. Upon the return of the family she was found lying on her face on the floor dead, and the clothing entirely burnt off her back.

—At Toledo, Ohio, there are two rival clubs, and the end of a deer's tail is accepted as proof of the hunter's capture of the animal. One of the members has recently been detected in scalping the tails of dead deers lying in the Toledo market.

—The line of steamers which was some time ago established between Baltimore and Liverpool, it is announced, has been withdrawn, on account of the great dullness of trade, which prevented sufficient patronage being given it.

WASHINGTON, January 11, 1868.

A NEW RECONSTRUCTION BILL—PROPOSED INVESTMENT OF GEN. GRANT WITH AMPLE POWER.

The Reconstruction Committee held a long meeting this morning and after some discussion it was agreed to report the following bill, which will be before the House on Monday.

Be it enacted, &c., That in Virginia, North Carolina, Georgia, Alabama, Mississippi, Louisiana, Texas, Florida and Arkansas the civil State Governments in said States respectively shall not be recognized as valid or legal State Governments either by Executive or Judicial power or the authority of the United States.

SEC. 2. *Be it further enacted*, That for the speedy enforcement of the act entitled "An act to provide for the more efficient government of the rebel States," passed March 2, 1867, and the several acts supplementary thereto, the General of the Army of the United States is hereby authorized and required to enjoin, by special orders, upon all officers in command within the several military departments within said several States the performance of all acts authorized by said several laws above recited, and to remove, by his order, from command any or all of said commanders, and detail other officers of the United States army, not below the rank of colonel, to perform all the duties and to exercise all the powers authorized by said several acts, to the end that the people of the several States may speedily re-organize civil governments, republican in form, in said several States, and be restored to political power in the Union.

SEC. 3. *Be it further enacted*, That the General of the army be authorized to remove one or all civil officers now acting under the several provisional governments within said several disorganized States, and appoint others to discharge the duties pertaining to their respective offices, and may do any and all acts which, by the said several laws above mentioned, are authorized to be done by the several commanders of the military departments within said States, and so much of said acts or of any act which authorizes the President to detail military commanders to such military departments, or to remove any officer which may be detailed as herein provided, is hereby repealed.

SEC. 4. *Be it further enacted*, That it shall be unlawful for the President of the United States to order any part of the army or navy of the United States to assert by force of arms the authority of either of said Provisional governments in said disorganized States, to oppose or obstruct the authority of the United States as provided in this act and acts to which this is supplementary.

SEC. 5. *Be it further enacted*, That any interference by any person with intent to prevent by force the execution of the orders of the General of the Army, made in pursuance of this act, and of acts aforeaforesaid, shall be held to be a high misdemeanor, and party guilty thereof, shall, upon conviction, be fined not exceeding $5,000 and imprisonment not exceeding two years.

SEC. 6. *Be it further enacted*, That so much of all acts and parts of acts as conflict or is inconsistent with the provisions of this act is hereby repealed.

The vote of the Committee on this bill was:

Yeas—Messrs. Boutwell, Bingham, Farnsworth, Hubbard, Brennan and Paine.

Nays—Messrs. Stevens, (Pa.) Brooks and Breck.

Mr. Stevens, it was stated, was decidedly opposed to the bill, and during the consultation wanted some provision adopted by which the Congressional representation of the Southern States would be increased to the extent of ten, on a wider basis than that which now prevails. It is not improbable that an effort will be made to pass the bill on Monday, under the operation of the previous question.

THE SUPREME COURT AND RECONSTRUCTION ACTS.

The *Herald's* special says: The recent agitation of the intended action of the Supreme Court in relation to reconstruction, has led to a movement to effect the passage of an act declaring that in the cases testing the validity of any law passed by Congress two-thirds of the whole Court shall effect a decision; also, that provision be made to reduce the quorum of the Court from six to five, for the reason that as the Court now consists of but eight Justices, instead of ten, the number of a quorum should be correspondingly reduced. The Judiciary Committee are now prepared to introduce the bill.

FINANCIAL.

The fractional currency issued during the week, was $5,905,000; amount shipped $534,514; United States notes $600,000, including $300,000 to the Assistant Treasurer at St. Louis, and $200,000 to the United States Depository at Louisville. National bank notes issued, $150,500; amount in circulation, $299,488,016; fractional currency redeemed and destroyed, $461,100. Receipts of Internal Revenue for the week, $7,744,307; total for the fiscal year to date, $107,579,775.

STANTON SUSPENSION CASE.

The Senate was in executive session nearly four hours this afternoon, engaged in the consideration of reports in the Stanton suspension from office case, and adjourned without coming to a vote.

SUIT AGAINST GEN. TERRY.

General Terry is forced to remain here and answer to a suit brought against him by a person from Virginia. It seems when the General was in command at Richmond two citizens laid claim to a piece of land, one under a lease from the rebel owner, and the other under a lease granted by an agent of the United States Treasury. The latter was put in possession by the General's order. The former claimant in consequence brings this suit against the General.

RIGHTS OF AMERICAN CITIZENS.

A large meeting was held in Carroll Hall last evening, at which speeches were made by Senator Wilson, Montgomery Blair, Wm. E. Robinson and others, and resolutions adopted looking to the protection of the rights of American citizens abroad, and resolutions to that end and requesting the President to remove Minister Adams were adopted.

WHISKY RINGS.

It is asserted that a raid is about to be made upon the whisky rings alleged to exist in different large cities, and if many parties notoriously implicated are not removed an exposure will be made in the House.

INDIAN PEACE COMMISSION.

Most of the members of the Indian Peace Commission board are still in this city. General Sherman is stopping with his brother.

SENATE EXECUTIVE SESSIONS—THE STANTON SUSPENSION CASE.

The New York *Herald's* special says: Executive Session of the Senate to-day was prolonged and interesting. Mr. Buckalew moved at the commencement that the reporter be called in and the proceedings given to the public. The motion was negatived by almost a strict party vote. Mr. Doolittle then spoke in favor of the minority report, which was submitted in printed form, defending the President and animadverting in caustic terms upon the course pursued by Mr. Stanton while in the Cabinet. Mr. Doolittle showed that the President's message in reference to Mr. Stanton was divested of the least color of prejudice or exaggeration, and gave in the simplest form the soundest reasons for adopting the course he did. He drew especial attention to the official copy appended to his report of the telegram sent by General Baird to Mr. Stanton, in which the words "at once" appeared, and were not interpolated, as Mr. Howard's published report would deceive the public into believing. The Senator's speech occupied an hour.

Mr. Buckalew followed in a strong and earnest speech on the same side, dwelling with particular emphasis on the baseness of the effort made to fasten upon the President the charge of having interpolated in General Baird's dispatch the words "at once." The copy of the dispatch on file at the War Department contained the words "please instruct me by telegraph at once." Yet the Senator from Michigan had allowed his report to go forth to the world with these two very important words omitted, giving the impression that Mr. Stanton was not called upon to furnish a reply immediately. Mr. Howard here acknowledged he omitted to make allusion to it in his completed report, and endeavored to cast the blame upon reporters, whom he characterized the day previous as false to their pledges.

Mr. Buckalew continued, saying it would be only an act of justice to all concerned, if the minority report submitted by Senator Doolittle should be given to the public as well as Mr. Howard's.

He was followed by Mr. Dixon, who had not gone far when a motion to adjourn was made, to which Mr. Dixon gave way, and the debate was postponed till Monday.

WASHINGTON, Jan. 12, 1868.

CHILIAN MINISTER.

Senor Blest Gana, the Chilian Charge, took official leave of the Secretary of State, having been entrusted by his government with an important mission to England.

COLFAX ON THE RIGHTS OF AMERICAN CITIZENS ABROAD.

The following is the letter sent by Speaker Colfax to the meeting held here on Friday night, in favor of protecting American naturalized citizens abroad:

"A country like ours, all of whose people, except Indians not taxed, are of foreign birth, or descended from foreigners, must either cease to naturalize the millions who come to us from abroad, or must protect them fully in the rights of citizenship proffered to them by our laws. As it is the greatest glory of any nation that it protects the poorest and humblest of its citizens as earnestly as the richest and most powerful, we should be as quick to throw the shield of our nationality over all who have taken our oaths of allegiance in our courts as if they had been born on our soil. To demand that they should fight, bleed and die for the country of their adoption in war as American citizens, and then fail to protect them as American citizens in peace at home or abroad, would be a national shame. I have no doubt that Congress will speak on this subject with no uncertain voice."

NEW COMMISSIONER OF REVENUE.

It is reported in financial circles that the President will at an early day send to the Senate the name of Major Perry Fuller for the position of Commissioner of Internal Revenue. Major Fuller has long been prominently connected with commercial interests in New York, and is widely and favorably known as a man of ability and unquestioned integrity.

HARRISBURG.

The Legislature—"Reasons" of the Dissenting Republicans in the House.

[By Telegraph to the Pittsburgh Gazette.]

HARRISBURG, Jan. 11, 1868.

When the roll was called in the House yesterday afternoon on the twenty-sixth ballot for Speaker, and the name of Mr. Armstrong was reached, he rose in his seat and read the following paper:

HOUSE OF REPRESENTATIVES,
January 10, 1868.

We, the undersigned, Republican members of the House of Representatives of the Commonwealth of Pennsylvania, having declined to attend the caucus of our party friends, held for the purpose of making nominations of persons to fill offices of this House, and having up to this time withheld our support from the nominee of said caucus for the position of Speaker, desire to lay before this body, our immediate constituents, and the people of the State, the reasons which have influenced our action. We have been opposed to the election of the candidate for Speaker presented by the caucus above referred to because we believed and still believe that the will of the people and interests of the Republican party at this time in this State demand the election of a Speaker with, among others, the following qualifications: First, one who is in all respects free from responsible connection with past legislation of this body considered offensive to the people; second, one whose record and life show him to be in favor of reforming the abuses that have crept into the management of affairs in this State, and of retrenching in all practicable ways the expenditures of the Commonwealth; third, one who has not been identified in a way that would be likely to effect his official action with any corporation in the State, that has heretofore shown a disposition to monopolize privileges to exercise powers not granted by the charter, and to control legislation by improper influences; fourth, one who would so constitute Committees of this House, and so direct its action, as to carry into effect in good faith the will of the party to which we belong, as expressed at its late Convention held at Williamsport, in favor of the passage of a free railroad law; and judging the candidate for Speakership favored by a majority of our party friends by his votes in this body, by his published remarks and speeches, and by his surroundings, we have not deemed him the person qualified to meet the just expectations of the Republican voters of the State, or to give strength to that party organization which saved the country from disruption by war and to which a patriotic people look for a wise government in peace.

Our temporary separation from those with whom we have heretofore acted has been painful to us. The step was taken in the first place from no feeling of disappointment or revenge, no disposition to be factious, no intention of becoming disorganizers; but we claim that we have been actuated wholly by a high sense of duty to ourselves, our constituents, and to the party whose best interests we have always tried to serve. At no time has a thought been entertained by any one of the undersigned of casting a single vote under any possible circumstances for a candidate supported by the party called Democratic. Our whole purpose from the beginning has been to secure time for reflection on the part of the majority of our own party, hoping that on sober thought they would see the mistake they had made and hasten to correct it, and give time for the people to express themselves so that those who are but their servants could not help being made acquainted with their voice, and though it might be willing to yield to the popular demand. Minorities have responsibilities as well as majorities, and as such we feel that we have but discharged our duty. In the hope that a change would be effected by a little delay, we have not been disappointed. The candidate for the speakership presented by the majority has not been withdrawn, as we had hoped he would be, but he has given us such pledges and assurances that we feel we have gained substantially the object we aimed at, and that our course will be fully justified by the prudent and independent character of legislation that the party in power in this House will enact during the present session. Not having, therefore, any further end to gain that will justify a longer delay, and desiring that the House be organized as speedily as possible, that the public business may be transacted, we will bow respectfully to the will of the majority.

ST. LOUIS.

Grand Army of Republic—Department of Missouri.

[By Telegraph to the Pittsburgh Gazette.]

ST. LOUIS, January 11.—Delegates from various Posts of the Grand Army of Republic, Department of Missouri, met here last night and elected General Pile, Colonel Gravelly, General Hammond, General Fisk, General McNeil, Colonel Murphy, and Colonel Robertson, colored, delegates to the Philadelphia Convention. General Shurtz, General Cavender and Colonel McClurg are also delegates, by virtue of their offices of Grand Senior and Junior Commanders.

Dorchester Insurance Company Robbers.

[By Telegraph to the Pittsburgh Gazette.]

BOSTON, Jan. 11.—John Preston and Ida, who claims to be Preston's wife, who are charged with robbing the Dorchester Insurance Company of some nine thousand dollars, arrived here to-day from Charleston, where they were arrested. John Temple has also been arrested as an accomplice.

FORTIETH CONGRESS.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, Jan. 11, 1868.

SENATE.

PETITION OF MRS. FREMONT.

Mr. POMEROY presented the petition of Jessie Benton Fremont, of New York, praying that certain property in San Francisco, California, taken possession of by the Government, may be restored to her, stating that she had resided on this property until 1861, when she joined her husband, then in the army, renting the property to the Surveyor General of California, who retained possession until 1863, when the military authorities took possession of it, and have retained it ever since. Referred to the Committee on Private Land Claims.

THE CONSTITUTIONAL AMENDMENT.

Mr. SUMNER introduced a joint resolution,

THAT WHEREAS, The amendment proposed by the Thirty-ninth Congress, known as article fourteenth, has already been adopted by the legislatures of twenty-two States, (reciting their names;) *And whereas*, By the Constitution an amendment duly proposed and ratified by three-fourths of the States is declared valid, Therefore,

Resolved, That said amendment, having received the requisite ratification, is valid to all intents and purposes.

He said it seemed important that the country should know whether that article is valid as part of the Constitution or not. He thought there was no question of the validity and hoped Congress would declare so without delay; that it was their duty rather than that of any other branch of the Government. It had been the custom heretofore for the Secretary of State to certify to the ratification. In his opinion it came properly within Congress.

Referred to Committee on Judiciary.

NAVAL OFFICERS.

Mr. GRIMES introduced a resolution that the Secretary of the Navy be requested to suspend until further action of Congress all payments to officers of the navy on the retired and reserved lists promoted under the act of March, 1867, except such as they were entitled to at the time they were placed there on and at the time of the passage of the said act. Adopted.

SOUTHERN STATE GOVERNMENTS—QUALIFICATION OF VOTERS.

Mr. DOOLITTLE gave notice that when Mr. Morton's resolution to invalidate existing governments in the Southern States was again called up, he would move to amend by instructing the Committee on Judiciary, in any bill for reconstruction reported by them, to insert a proviso that in any election of officers, or for the ratification of constitutions, persons voting must be possessed of one of these three qualifications: First, have served in the army one year or more; second, have sufficient education to read the Constitution of the United States and subscribe his name; and third, be possessed of freehold property to the amount of two hundred and fifty dollars.

The proposed amendment, which is substantially the resolution heretofore offered by him, was ordered to be printed.

DISTRICT CORPORATIONS.

The bill to amend the act relating to the formation of corporations in the District of Columbia was debated until the expiration of the morning hour, when the President announced the special order, but, on motion of Mr. HOWARD, the Senate went into executive session, and when the doors were opened adjourned.

HOUSE OF REPRESENTATIVES.

COMMITTEE OF THE WHOLE.

The House went into Committee of the Whole on the state of the Union, Mr. DAWES in the chair, for general debate on the President's annual message.

Mr. BALDWIN proceeded to reply to the speech of Mr. Brooks last week, and to combat the arguments of Mr. Brooks as to the natural ingenuity of the African race. He declared that the spirit of that speech was unworthy of any man claiming elevated civilization.

Mr. BARNES addressed the Committee on the question of national finances. He characterized as wild chimera the theories set forth in the bill recently introduced in the Senate by Mr. Morrill, of Vermont—a bill bearing upon its face evidence of the very best intentions, but inwardly full of practical absurdities, which, if undertaken to be put into effect, would involve the question of repudiation of the national debt and financial ruin of this generation of men. That bill, the recommendations of the finance minister, and all bills so far introduced into this Congress, undertook to legislate a return to specie payments, hinged upon the fatal error that Congress could directly or indirectly legislate as to when that period should occur. Congress could not independently alone, or as primary, fix any day, be it near or remote, be it this year or fifty years hence, when the country could return to the specie standard. So long as Government bonds underlie the circulating medium, as at present, and so long as these bonds will not sell for eighteen per cent. more in gold than their present price, the country can never return to specie payments. The country desired no more expansion, to be followed by a cry for contraction. It had already sustained the losses on one shrinkage. Let them not repeat the unnecessary torture. Let the currency rest in amount where it is at present. Were there fifty millions more or less, he should say the same thing. Stability, more than the amount, was the requirement of commerce. He gave notice that on the first opportunity he should present in due form the following resolution:

WHEREAS, The interest of this nation demands as early a return to the specie standard of the world as can be consistently done; and whereas, among the principles now retarding that desirable end are the following: first, ability in the amount of currency furnished the people; second, the low price of United States bonds affecting a portion of the currency; and third, the inadequate security furnished by the National banks; therefore be it

Resolved, That the Committee on Banking and Currency be and it is hereby directed to inquire into the expediency of fixing the currency at its present nominal amount for a period of years, and also how the franchises of the National banks can be so changed as to furnish bill holders security when the resumption of specie payments shall occur, or how the bills of the said National banks may be converted into legal tenders, with other recommendations thereto pertaining, and report by bill or otherwise.

Mr. WOOD addressed the Committee, arguing against the legal position assumed by the minority of the Judiciary Committee in reference to the law of impeachment.

Mr. KERR next addressed the Committee and proceeded to discuss the principles involved in the question of American citizenship, which was now justly agitating the public mind. It might become the duty of Congress to make some authoritative and explicit declaration on the subject. Every nation being the equal of every other nation, and having the absolute and unquestionable control of its own domestic policy, had necessarily the right to regulate the principles on which its citizenship might be acquired or lost. The right of expatriation was an original, God-given right, and was that in which the American nation had its birth. When American citizenship was once conferred no other nation had a right to question its completeness. If not aliens, and when naturalized become divested of all other allegiance, then the absurdity would follow that such persons owed a two-fold allegiance. He did not mean to assert that if certain duties and obligations became by the laws of a country attached to an individual, that individual did not by expatriation discharge himself of them; but when persons, innocent of crime, and free from obligations, came to the United States, and were admitted to citizenship, it was cowardly in a nation, when they returned to the country of their nativity, to suffer them to be denied those rights which were accorded to the citizens or subjects of other nations. It becomes the country, not by the vain ceremony of a law of Congress, to make good to naturalized citizens the rights guaranteed to them, but it was the duty of Congress to put into the hands of the Executive the power to vindicate those rights. Let this be done, and Great Britain, and every other nation, even if not conceding the principle, would at least concede the power of the United States, and would cease to attempt those outrages on American citizens which had lately aroused, not only the American people, but friends of the country all over the earth. This should be done, not as a threat, but with dignity, firmness, vehemence, and await the results in the subsequent practice of nations. The Committee rose.

EXPLANATION.

Mr. PILE, referring to his remarks of Thursday, affecting the reputation of Mr. Fowler in connection with government contracts in St. Louis, said he had since been assured by Mr. Fowler that he had withdrawn from the firm before the majority of the frauds had been perpetrated, and that he was not responsible for them. He deemed it just to that gentleman to make the statement in the House.

ARMY BILL STILL CONSIDERED.

PARIS, January 11.—The bill for the reorganization of the army is still under consideration in the Corps Legislatif. The article obliging every Frenchman to serve in the National Guard was adopted last evening by a vote of one hundred and seventy to one hundred and seventy one. An amendment for the exemption from the operation of the article was introduced, but opposed by M. Rouher. During the debate which preceded the final action of the Corps on the bill, M. Rouher said: This article will startle attentive ears abroad, and inspire the army which precedes the National Guard to the battle-field.

NAPOLEON AND KING WILLIAM.

PARIS, Jan. 11.—On New Years day King William, of Prussia, sent the Emperor a cordial autograph note, which was answered in the same conciliatory spirit. A much better feeling has prevailed since publicity has been given to this intelligence, and nowhere was it better received than on the Bourse. Rentes are firmer and higher.

Most of the actions which have recently been taken against journals of this city by the authorities, for alleged violations of privileges, have been abandoned.

ATLANTIC TELEGRAPH CO. PROJECT.

LONDON, January 11.—The directors of the Atlantic Telegraph Company have issued a prospectus to raise one million three hundred thousand pounds sterling to purchase all the rights and interests of the Anglo-American Telegraph Company in the two cables across the Atlantic and pay off their indebtedness.

AFTER FENIAN LEADERS.

The authorities are very active in searching out leaders of the Fenian movement. A man has been arrested in the county of Cork, who it is expected will prove to be no other than the celebrated Colonel Michael Dohenny. The police have been on his track for a long time, and it is known he has been lurking in unfrequented places in disguise, and under assumed names, and attempted several times to make his way to the United States. The man Lennon, who was arrested at Dublin yesterday, is charged with killing a policeman in last October.

THE WAR SITUATION BETWEEN BRAZIL AND PARAGUAY.

LONDON, January 12.—Accounts from the interior of Paraguay, received by last steamer from Rio Janeiro, show the condition and prospects of the Paraguayans better than the Brazilians are willing to admit. President Lopez in person was in command at Humita, and held the lines of communication with his capitol at Ascension and with the fortress of Curipaity uninterrupted. As the forces of the allied powers were very weak in front of Humita, the Paraguayans defied them to undertake the siege. All classes of the population were as enthusiastically devoted to Lopez as ever, and making most energetic efforts to supply men and provisions, but on other hands the allies were preparing to push on the war with vigor. The Brazilian government was forwarding reinforcements, and the other powers were sending supplies of men and material to Rio Parana.

Gen. Mower Ordered to Report to his Regiment—Order from Gen. Hancock on Registration.

[By Telegraph to the Pittsburgh Gazette.]

NEW ORLEANS, Jan. 11.—Gen. Mower has been ordered to report to Gen. Buchanan for duty with his regiment.

In General Orders No. 3, dated to-day, General Hancock gives the memoranda and questions which were distributed from the headquarters of the 5th district in May last, which were calculated to produce the impression on boards of registration that they were rules for their guidance, and were so regarded, and in point of fact controlled the acts of such boards. General Hancock informs the boards of registration that this memoranda and questions are null and of no effect, and that boards are to look to the laws alone for rules to govern them in the discharge of their duties. For this purpose they will be furnished with copies of the acts of Congress relating to this subject.

The Convention—Ordinance Validated by General Meade—Governor Jenkins Removed by Gen. Meade—Intense Excitement.

[By Telegraph to the Pittsburgh Gazette.]

ATLANTA, January 11.—The Convention was almost exclusively occupied during the day's session in debating resolutions petitioning Congress to remove the present officers or give the Convention power to do so, with authority to fill vacancies thus made. Pending the discussion the Convention adjourned.

A general order appeared this morning from General Meade validating an ordinance to stay the collection of debts in Alabama up to the 1st of January, 1869, except claims for labor and hire, adopted by the late Convention in that State, to take effect from Tuesday, and further ordering that the several officers, judicial and otherwise, in Alabama respect and obey this order. A similar order is looked for as to this State, when the Convention adopts a permanent relief ordinance.

There is considerable excitement here to-night over the report, on high authority, that Governor Jenkins has been removed, and General Dunn, formerly of Pope's staff, appointed Governor.

NEW YORK, Jan. 12.—The *Herald's* special, dated Atlanta, January 11th, says: Major Gen. Meade has removed Gov. Jenkins. The order will be promulgated on Monday. Brig. Gen. Dunn, Adjutant General under Pope, is to be the new Governor. Gov. Jenkins declares he will not submit to the order, and has telegraphed to the President for protection against any attempt to forcibly dispossess him.

In the Convention to-day, on the resolution asking Congress for the power to remove State officers, there was a very exciting and bitter debate. Mr. Miller, who has hitherto acted with the majority, surprised the Convention by denouncing the measure. He declared a large majority present represented negro votes and not tax paying inhabitants of Georgia. He denounced the measure as a monstrous deviltry; declared that Jacobin clubs held nightly meetings to shape the course of the Convention, and appealed to Congress and the American people in the name of humanity, liberty, and in the name of the white race, for protection from the plots of the majority.

ATLANTA, Jan. 12.—The rumored removal of Governor Jenkins gains renewed credence. Last night an aid left headquarters here for Milledgeville. It is stated by Governor Jenkins he will test the legality of the removal by a *quo warranto*. The Convention enters upon the formation of a new Constitution to-morrow.

AUGUSTA, January 12.—The report of Jenkins' removal causes intense excitement. Private accounts are conflicting. One report states that General Meade's order making the removal will be published to-morrow. Another states that many believe the rumor of Jenkins' removal premature.

CITY AND SUBURBAN.

Presentment of the Grand Jury.

Our Magistrates—Their Cupidity—False Pretense and Larceny as Bailee Cases—Liberality of the Liquor License Board—Assistant District Attorney.

The Grand Jury of the December term of the Quarter Sessions finished their labors on Saturday, and were discharged. They made the following presentment:

To the Honorable the Judges of the Court of Quarter Sessions, &c., of the County of Allegheny, December Sessions, 1867.

The Grand Jury in closing their labors deem it prudent to make brief reference to some matters which have attracted their attention. The number of cases brought before us does not appear unusually large, in comparison with the term for the corresponding period last year. We have passed upon about four hundred cases.

In cases presented for our consideration we have been vividly impressed with the injury magistrates inflict upon the community in transcending their duties as conservators of the peace. They are especially culpable in oppressing the poor and ignorant, by encouraging litigation, and in causing great expense to the county by entertaining cases where the parties concerned should have been advised to settle their difficulties without recourse to law. Such advice we cannot think would fail to be given by a proper magistrate, one having a proper understanding of his duties, not only as a public officer but as an upright citizen. The pursuance of a different course seems to be the rule, to which, however, there are a few exceptions. The desire for gain of some of our magistrates seems to outweigh their sense of justice, and hence in the pursuance of their business great injustice is done—the public peace is not preserved, but disturbed.

In the consideration of cases of the class referred to it has been a source of regret that we could not in some practical way rebuke magistrates for their misconduct in office. In some it was proposed to place the costs upon them, but there seemed to be no authority of law for this.

We would also call the attention of your Honors to the great number of cases of false pretense and of larceny as bailee entertained by magistrates. These are brought, we believe, in many instances, to enforce the summary payment of money, just or unjust debts, the *criminal* law being made to answer the purpose of the *civil*—in the payment of money—so far the former answers for the arrest and perhaps committal for a "further hearing" of the accused, this *punishment*, and the fear inspired of further punishment, accomplishing the object. Comparatively few of these cases reach the grand jury or the Court, the magistrates and prosecutors disposing of them as their interests are served—as the accused pays the debt and costs, or refuses so to do. In the latter event, perhaps, the case goes to Court. If the money is paid, the accused is discharged, this consideration outweighing that as to whether or not there was sufficient to cause his arrest in the first instance, and to hold him for trial, after hearing, to answer a criminal charge.

Comparatively few liquor cases have been brought before us. The liberality of the County Commissioners, as a Board of License, seems to have checked the violation of law in this regard. If it has not been increased in other respects, this is gratifying.

We take occasion to express our thanks to the Assistant District Attorney, John W. Riddell, Esq., for the very able and efficient manner in which he has discharged his duties during our sitting. We recognize the necessity for the office, and also the capability of the present incumbent.

All of which is respectfully submitted.

Conviction of Dawson, the Forger.

In the report of proceedings in the Philadelphia Court of Quarter Sessions on Friday last, we find the following in relation to an individual who some time ago operated in this city:

Josiah Dawson, alias Josiah Williams, alias Josiah Anderson, was convicted of a charge of forgery. The facts were very plain and conclusive, the prisoner offering no evidence to contradict them.

On the 17th of October last he called upon Elijah W. Lynd, queensware merchant in Commerce street, above Fifth, and produced a letter of introduction, purporting to be from a Mr. Best, of Pittsburgh, a gentleman whom Mr. Lynd well knew, and in consequence of this letter he was well received. In the course of conversation he showed Mr. Lynd a check for a certain amount upon bankers at the corner of Fourth and Wood streets, Pittsburgh, drawn in his favor, and bearing the forged name of Mr. Best, and asked Mr. Lynd to indorse it, so that he could raise money upon it in this city.

Mr. Lynd, not being sufficiently well acquainted with Mr. Best's signature, declined to do so, but offered to introduce the prisoner at the Central National Bank, where he kept an account, where the check could be deposited, collected and paid. This was assented to, and the check was deposited. Mr. Lynd then wrote his name and residence upon a card, handed it to the prisoner and left him. Subsequently, but on the same day the prisoner returned to the bank and presented a check for $150, bearing the forged signature of Mr. Lynd. The paying teller was not satisfied with the signature, and refused to cash the check. The prisoner went away, and soon returned with this addition to the check: "O. K. Elija W. Lynd." He stated that Mr. Lynd was slightly intoxicated when he drew the check, and hence this little inaccuracy in his signature. This threw the teller off his guard, and the money was paid. The fraud was soon detected and the prisoner arrested. It is almost needless to say that the Pittsburgh check proved to be a forgery. Sentenced to six years in the Eastern Penitentiary.

Securing Customers.

There is a standing rule with hotel keepers, which requires customers without baggage to pay in advance, and acting upon this rule Thomas Morgan, proprietor of the United States Hotel, in the Fifth ward, demanded of Jeremiah Dempsey and two other men who asked for lodgings Friday evening five dollars each, as security for the payment of their bills, promising to refund a portion of the same if they should leave the house before the expiration of the time for which that amount would pay. With this understanding the parties paid over five dollars each, and then took supper. After supper they started out for a walk, and after an absence of an hour or two they returned. On entering the house they were not pleased with the parties who appeared to be domiciled there, and resolved to seek other quarters. They informed the proprietor of their intention, and demanded the refunding of their money, less the price of supper. Morgan refused to return the money. The parties then visited Alderman Taylor, and one of them, Jeremiah Dempsey, made a charge of larceny by bailee against Morgan. The accused was arrested, and witnesses were examined and corroborated the statement made by the parties. Morgan, however, still refused to return the money. Bail was demanded for his appearance for trial at court, but he could not produce the amount, at that hour of the night. The only alternative was to return the money or go to jail. After much hesitation he chose the former course, and returned to the strangers an aggregate sum of thirteen dollars and fifty cents. The prosecution was then withdrawn.

Fire.

About two o'clock Saturday an alarm of fire was sounded from box 16, Duquesne Engine House, which was occasioned by a fire breaking out in the second story of a house occupied by F. N. Miller, wholesale liquor dealer, as a store room and dwelling, at No. 52 Smithfield street. The fire department was promptly on the ground and soon extinguished the flames, but not until considerable damage was done by the devouring element. The fire originated, it is thought, from hot coals falling from the stove, setting fire to the floor, from which it was communicated to a bed. The building is owned by the Woods heirs. The loss is fully covered by insurance.

Presentation.—The Eagle Fire Company of this city will present to the Vigilant of Philadelphia, Tuesday evening, a magnificent silver punch bowl. A delegation of the Eagle boys will leave for Philadelphia this morning, and several others will go this evening, for that purpose. Tuesday evening is the occasion of the annual ball of the Vigilant, and a pleasant time is anticipated. The presentation will take place at the close of the ball.

COMBINATIONS IN BUSINESS.

An Important Decision.

DUTIES OF AGENTS.

From the Court reports of the Philadelphia *Press* we take the following very important decision, rendered by a full bench, in the O'Conner-Tack case:

Quarter Sessions—Judge Ludlow.

This (Saturday) morning the following decision was rendered in the case of Commonwealth ex rel. Theodore E. and Augustus H. Tack vs. The Sheriff. The Judge says:—The relators have been held to bail to answer the charge of conspiracy.

It has been said by writers of authority that Statutes 33 Edw. 1, s. 2, and 33 Edw. 1, s. 3, so far as they relate to conspirators, are to be considered in force in Pennsylvania; while under our penal code, the only section touching the offense is to be found in Pamphlet Laws, 1860, p. 413, s. 128, wherein it is declared, "if two or more persons shall falsely and maliciously conspire and agree to cheat and defraud any person or body corporate, of his or their moneys, goods, chattels, or other property, or to do any other dishonest, malicious and unlawful act, to the prejudice of another, they shall be guilty of a misdemeanor."

Undoubtedly the first English statute is in affirmance of the common law, and it is to be regretted that neither the English statute nor our own defines the offence with accuracy; and while certain combinations have always been decided to be criminal, the judges have been obliged from time to time to enlarge the offence, so that while the limit may have been reached, each case must be decided by the circumstances surrounding it.

It is clear that a combination to do a criminal act is indictable, as is also a combination by unlawful means to do a lawful act.

It was not *per se* indictable to raise the price of oil on a given day, neither was it *per se* an offence to combine honestly to do so; we must therefore endeavor, under the evidence produced at this hearing, to ascertain whether the relators have in any other manner broken the law.

There is a class of cases in which the distinctive feature of the offence is the motive which prompts the combination, or as Ch. J. Gibson remarks in Commonwealth vs. Carlisle, Brith. 7 R. p. 39; "What is the same thing, the object to be attained as a consequence of the lawful act."

Upon this principle the act of an individual may be lawful, and yet if he combine with others to do the same act, with an intention to cheat and defraud another, or to benefit the conspirators to the prejudice of the public, by force, *fraud* or menaces, intended to effectuate a purpose, or where "prejudice and oppression are the natural and necessary consequences," he may commit an indictable offence.

The courts have not always been entirely consistent in applying the doctrines above stated to the case before them, and perhaps the reasons may be found in the inherent difficulties which attend the consideration of causes of this nature.

It was held in England that a conspiracy to raise the price of labor or wages was indictable (8 Mod. 10); while in Massachusetts it was decided otherwise, because there was no element of fraud, force, or menace in the case.—Commonwealth vs. Hunt, 4 Met 134. The English decision may be sustained, because by an act of Parliament, the rate of wages had been fixed, and to combine to raise them was to endeavor to do that which was prohibited by law.

In New York at one period the doctrine of the English case was broadly affirmed, but more recent decisions are based upon a statute, and can hardly be said to sanction the general principle.

Ch. J. Gibson, in Com. vs. Carlisle, already cited, grappled with the subject, and has, to a certain extent, illustrated, as well as stated, the law of conspiracy; he cites numerous instances in which the motives and objects of the conspirators have constituted the essence of the offence.

Of this nature was the conspiracy to establish a ferry, not from motives of public or private utility, but to ruin the owner of a neighboring ferry. So, where the bakers of a town combine to hold up the article of bread, and by means of a scarcity produced, extort an exorbitant price; so where the officers of an army agree in time of public danger to throw up their commissions, or a number agree to hiss a play right or wrong.

In the instances above cited "there was an unmixed motive of mischief either to the public or an individual," says the Chief Justice, and therefore the actors were indictable; while in conspiracies to raise the public funds by false rumors, 3 M. and S. 67, or of a number to go to a public auction and agree that one shall bid for a particular article, and afterwards shall resell among themselves at fair prices, and divide the difference between buying and selling prices, Levi vs. Levi 6 C. and R., 239, or where a number of dealers in salt combine not to sell under a given price. Rex vs. Norris, Kenyon's Rep., 301. The offence was held to be indictable, because the motive was simply to increase unduly the gains of the conspirators, and was unlawful because of the means used to attain the object in view. Upon principle, and in view of the authorities, it may be safely said, subject to the remarks hereafter to be made in another portion of this opinion, that all combinations or conspiracies are indictable wherein the motive moving the confederates, and the object they have in view is to cheat and defraud an individual or the public by *force, fraud or menaces*, and where also oppression and prejudice to the public or an individual must inevitably follow.

With the law thus stated, it is clear that in the case before the Court (speaking simply now with regard to the injury done the prosecutor), the evidence presents an issue which can only be decided by a jury. It is established that these relators were the paid agents of O'Connor, he testified that his entire interests were placed in their hands. Augustus Tack declared, says the prosecutor, "that if I placed my interests in his hands he would protect me." Theodore, upon the eve of his visit to Philadelphia, "pledged himself to advise me, and post me reliably on everything that occurred, and would protect my interests."

Much evidence has been produced tending to prove that almost immediately after the execution of the contracts, oil began to rise in the market: an event which alarmed the prosecutor, who had sold at low prices, by contract, 16,000 barrels of oil, deliverable from month to month, for a period of six months, upon call, according to the custom of the trade.

Testimony consisting of letters, telegrams and statements was produced, intended to prove that these relators made false statements as to the cause of the advanced price of the article in question, at one time pretending that the United States Collector had seized large quantities of oil, at another that a "corner," as it is called, had been made, but would soon "burst;" at another that a large quantity of oil had been or would be shipped from Philadelphia and New York. It also appeared that the relators, or one of them, had purchased oil at a time when, as was argued, he endeavored to make his principal believe he was a seller. One of the witnesses, Mr. Whiteman, relates the facts connected with his contract of sale to Bunker & Bros., which contract found its way into the hands of the Tack Brothers under peculiar circumstances. As Whiteman had bought one thousand barrels of oil of O'Connor, he was obliged to call upon O'Connor to fulfil his obligations, while the contract which he had made with Bunker & Co. had passed to the Tacks. Undoubtedly, these defendants, had the right, as oil brokers, to transact their general business, but in view of the evidence produced, can I discharge them, and thereby declare that the testimony which connects them with O'Connor, as his agents, bound under all circumstances to be very watchful of his interests, is of no weight, and ought not to go to a jury?

The condition of the markets immediately after the execution of the contracts by prosecutor may be susceptible of satisfactory explanation, and it may also appear that the relators had nothing to do with the advance price of oil in the market; but can I, ought I to say so upon the evidence before me, and thus withdraw the determination of the fact from the jury? If the Tack Brothers were the confidential agents of the prosecutor, if they had agreed under all circumstances to protect him, and immediately combined together to extract large sums of money from his pockets, intending thereby to greatly prejudice, oppress, impoverish and ruin him, the parties committed an indictable offence. It is not our intention to express an opinion as to the guilt or innocence of the relators; we only say that enough evidence exists to oblige us to send the case before the constitutional tribunal, to wit, a jury, where alone the question of fact can be determined. In another point of view, the evidence presents a case which ought to be investigated.

The prosecutor and Mr. Finney both testify that one of the relators came to the Continental Hotel, in this city, and there declared that "he was forming a bull-ring to elevate oil; that the combination was already successful, but it was loaded, and must be extended; he had already four parties who were to contribute $16,000 to artificially elevate oil;" "he then asked me," says O'Connor, "to place $20,000 in the plan, which would be $2 a barrel on 10,000 barrels, and the profits were to be divided pro rata."

The object of this combination was to purchase 150,000 barrels of oil in the Antwerp market, hold it, and thus stimulate the price of oil artificially, both in Antwerp and in the oil markets of the world. We are aware that this evidence raises a question which it is difficult to solve, and which being answered, may seriously affect the business of an entire community.

The danger of a conspiracy consists in the power which confederates wield by mere force of numbers, but all confederations are not criminal. The Commonwealth vs. Hunt, 4 Met 134, Ch J. Shaw said, "We think associations may be entered into, the object of which is to adopt measures that may have a tendency to impoverish another; that is, to diminish his gains and profits, and yet, so far from being criminal or unlawful, the object may be highly meritorious and public spirited.

"The legality of such an association will depend upon the means to be used for its accomplishment. If it is to be carried into effect by fair and honorable or lawful means, it is, to say the least, innocent; if by falsehood or force, it may be stamped with the character of conspiracy."

Combinations of capital may and often do great injury to individuals; generally, however, legitimate agreements have for their objects simply a desire to advance the interests of commerce, stimulate honorable competition, and by honorable means, *without falsehood, fraud, force or menaces*, enrich the confederates.

Vastly different is that conspiracy which, by means of false statements, or fraudulent artifices, seeks to draw either an individual or the public into a position whereby, in the language of Ch. J. Gibson in Commonwealth vs. Carlisle, they or he are "unjustly subjected to the power of the confederates, giving effect to the purposes of the latter, whether of extortion or mischief." Why should it not be illegal to combine dishonestly to stimulate the price of any marketable commodity?

Take for instance the articles of coal, wood, flour, salt, oil, or gold, where the combination is manifestly formed, not to stimulate trade by honest means, or for fair protection to those engaged in any particular business, but for the purpose of enriching the confederates to the injury of individuals and whole communities, and where, from the magnitude of the operations, "an unmixed motive of mischief, either to the public or an individual," is apparent, and nothing but prejudice or oppression must inevitably follow.

Practically, honest traders understand the precise limits of honorable competition, and so do those who conspire to control capital, as to render it sometimes impossible for honest men to transact business, and thus deliver individuals and the public into the uncontrolled power of conspirators.

Upon the point in this case now under consideration, the evidence discloses such a state of facts as to require me to send the relators to a jury to explain their conduct. The very nature of the alleged propositions made at the Continental by one of the relators, the objects to be attained, the time at which it was made, the parties present, and the circumstances surrounding them, clearly indicate that a question presents itself which can be answered legally only by a jury. The relators cannot, at this stage of the case, produce evidence or explain circumstances, and thus defend themselves. It may be that the combination made, and to be made, was legal and justifiable, but, we again say, that as this question can only be solved by determining their real motives and objects, and as enough appears to require them to explain their conduct, we must decline to discharge the relators in this writ.

As many of the overt acts said to have been committed were so perpetrated in this county, we have no difficulty in holding that the crime is one over which we have jurisdiction; and as it has never yet been decided to our knowledge that partners may not continue to cheat and defraud, we must remand the relators. As this cause is one of serious magnitude it has received the protracted and attentive consideration of the whole Court, and I am authorized to say that the opinion just delivered is the unanimous judgment of the Court.

Let the relators be remanded into the custody of the Sheriff.

J. Y. McLaughlin & Son.

By reference to our advertising columns it will be observed that our esteemed fellow citizen, Mr. J. Y. McLaughlin, has again embarked in active life, having associated with himself his son, Mr. W. F. McLaughlin, in the hide and leather business, at No. 325 Liberty street. We are particularly glad to be afforded opportunity of announcing this fact, as Mr. McLaughlin is recognized amongst our most enterprising, sterling and energetic business men, and has been closely identified with the particular trade in which now engaged for a long term of years. During a temporary retirement from active business, induced by financial embarrassment to the firm of which he was senior member, Mr McL. has succeeded in honorably discharging *every dollar* of his indebtedness, and now re-enters the circles of trade with financial character and personal reputation unimpaired. We congratulate our friend on this praiseworthy fact, and trust the new firm commencing business under such favorable auspices, may be awarded the large share of patronage merited by honorable, upright dealing and strict probity of character. Mr. Wm. F. McLaughlin, the junior member of the house, has conducted the business during the past year or two, and from his large experience and personal attention and surveillance over the affai[illegible] the new firm, will prove a valua[illegible]xiliary to its prosperity.

Larceny by Bailee.

Will T. Wiley, jeweler, on Wylie street, made information before Alderman McMasters, Saturday, charging J. Y. Little with larceny by bailee. It is alleged by the prosecutor that the defendant came to his store on or about the 10th ult., and stated that he wished to purchase a watch for a lady friend on Colwell street, and requested to be allowed the privilege of taking the watch for her to look at, promising to return and pay for it if it suited her. The privilege was granted, and he selected a watch and chain, valued at one hundred and seventy-five dollars. The time for his return arrived but he failed to make his appearance, and upon investigation it was ascertained that he had left the city and gone to Cincinnati, and that he had pawned the watch before leaving. He returned to the city on Friday, and on Saturday morning was arrested by officer Prescot, at Young's furniture ware rooms, and taken to the Alderman's office, where he was held in $1,000 bail for a hearing.

Alleged Larceny.

Henry Wagoner, proprietor of the Mansion House, appeared before Alderman Taylor, Saturday, and made information charging Charles and Louisa Cisler with larceny. At the time the larceny is alleged to have been committed Cisler and the prosecutor were in partnership, and it is alleged by the prosecutor that a muff valued at twenty dollars had been left in the office of the hotel, which the defendants took with them, in October last, at which time the partnership was dissolved, refusing to return it when called for by the owner. They were arrested and held for a hearing.

W. A. Gildenfenney, whose Fifth street establishment every one has known for years, has sent us the Tribune Almanac for 1868. This is one of the very best publications in the country, and no praise of ours can add anything to its value. Those persons who have not yet bought it should not neglect to do so.

Sentenced.—In the Court of Quarter Sessions, Saturday, William Beebe, convicted of obtaining glassware in considerable quantity from a firm in Birmingham, on complaint of H. McAfee, was sentenced to pay a fine of two hundred dollars and to undergo an imprisonment of two months in the county jail.

False Alarm—An Outrage on Firemen.

This morning, at two o'clock, some malicious villain gave an alarm of fire from box No. 65, corner of Penn and Smith streets, in the Ninth ward. The fire department was promptly on the ground, only to be disappointed. This was the second false alarm given during the past week, and it is about high time that the authorities should look up the guilty wretches who tamper with the alarm boxes. It is not pleasant to be called to so great a distance on an alarm prompted by the malicious mischief of any party.

THE STATE CONVENTION.

As yet the State Committee have not been called together for the purpose of determining when and where the State Convention shall be held. It ought to meet as soon as due notice can be given to the members. The National Convention has been fixed for May 20th.

In 1860 the Pennsylvania Convention met on February 22d. Its action had a very considerable effect in shaping the whole current of the following canvass. Occupying a central position; animated by moderate and enlarged views; its platform of doctrine exercised so much influence as to be accepted, with such additions as were needful to fill up the gap between the dimensions of a State and a nation, as the platform for the country. The supplemental resolutions in no way changed the sense or scope of the original. What was accomplished then can be repeated.

Moreover, if the Convention shall see proper to present the name of any distinguished Pennsylvanian for the Vice Presidential nomination, to delay the presentation until May would be fatal to his chances of adoption at Chicago. Other candidates will be brought out, public opinion will be concentrated elsewhere, and the nominee of our Convention will have no show whatever. We do not make this suggestion because we are inclined to champion any man's pretensions to this high honor, but because it is demanded by sound policy, and a due respect for whomsoever the choice may fall upon.

There are intimations that the delay is insisted on for personal ends in connection with preferment of another grade. We do not know how this may be, and shall be slow to cast imputations until a necessity shall be actually laid on us so directly as not to be cast off. But, as we judge, all considerations of public policy unite in demanding an early meeting of the Convention. It ought not to be postponed later than March; and the call for it ought to be specific in defining what powers it shall exercise, so as to prevent the repetition of controversies that have sometimes occasioned a degree of heat prejudicial to the harmony of the party.

In the meantime the respective County Committees had best take measures for the appointment of delegates to the State Convention. The occasion calls for the best order of men for this service. Political bummers are not suitable. Men who are more intent on possible preferment after the presidential election shall be over, than on the vindication of cardinal doctrines, ought to have tickets for back seats. They will adorn a gentle retirement better than posts of conspicuity and influence. Unselfish men, of sound sense, keen perceptions to discriminate between the false and the true, and a manly courage to do all that ought to be done, and not that which is easiest, are the men to send to the front on this occasion.

IT IS NATURAL members of Congress should wish to partake in the relaxations and enjoyments of the holidays, as well as other sorts of people. Certainly they dealt more liberally with themselves in that regard than newspaper men dare attempt in their own behalf. Some of the journals dropped their editions for two days; many for only one. Congressmen did not hesitate to take a vacation of ten days, and that just at the commencement of their annual labors, when they could not urge that they were fatigued and required rest. They took it, moreover, when many great interests of the people or government were sorely pinched, and needed both attention and relief. North and south, east and west, whites and blacks, were alike suffering.

A famous British statesman said it was his rule never to do to-day anything that he could put off till to-morrow, because he escaped the doing of many things by that expedient. Doubtless this is a convenient rule for lazy people. The lapse of time certainly takes away the necessity for many labors. If a man waits till his house burns down he escapes the need of removing his furniture or putting water on the flames. But few men would care to have his private concerns managed in that way. At some tasking of muscles or of mind, almost everybody prefers to have the best done that can be under the circumstances as they arise.

Now, that the Congressmen have had their play-spell it is to be hoped they will cease toying, and address themselves seriously to the tasks assigned them. The people are getting weary of the jangle about Reconstruction, and want the circle of the Union once more completed on fair and just terms. What might have been done two years ago, before the passions engendered by the war had subsided, will not be tolerated now. It is time this fact was recognized and acted upon. Then the industry of the country needs relief from taxation to the largest practical extent. Retrenchment of expenditures is required to this end. A fair enforcement of the revenue laws is of prime consequence, so that each branch of business shall pay the share assigned to it, and not cast the greater part of its load over upon others. A revision of the whole financial system seems to be involved, so that specie payments may be speedily and safely reached. As goods have gone down in value to the specie basis, the sooner the currency gets there the better for all holders of goods. If any business men fail to see that, they are to be pitied. Mr. SEWARD's land monopoly enterprises ought to be embargoed. Whatever might be desirable if the nation had no public debt, or little, in the way of territorial acquisition, all expenditures of cash in that way now, is injurious. Many a man has kept on buying lands and making improvements thereon with borrowed money, until the Sheriff got after him and sold him out. Mr. SEWARD is imitating this folly. Congress has plenty of arduous work before it. Let it take hold right earnestly, and meet the popular impatience by labors expeditiously and well done.

—Among recent items of literary gossip is one to the effect that Miss Dickens, daughter of Charles Dickens, is the author of "Aunt Margaret's Troubles," a novel not long since published in England, and that the same lady has just completed a second novel of great merit, entitled "Mabel's Progress." Referring to these reports, Mr. Dickens writes to Mr. Childs that his daughter had nothing to do with the authorship of either one of the novels mentioned.

—The Springfield *Republican* says of lotteries: "We may consider it a settled thing that all dealing in lotteries is gambling, and manifestly demoralizing and degrading, whatever may be its precise moral character and criminality. This is reason enough [illegible] avoiding the practice. Then, the ch[illegible] are ten to one that whoever buy[illegible] lottery ticket is swindled outright. [illegible] no indication that a lottery is gen[illegible] and will be honestly conducted bec[illegible] it professes to be for a benevolent o[illegible] or endorsed by business men of s[illegible] note, or is advertised in respectable [illegible]papers. Our advice is, don't buy lott[illegible] tickets."

—Cleveland is flooded with a most plausible counterfeit bank note, a two dollar National bill on the National Union Bank at Kinderhook, at New York. At a first glance this is one of the most deceptive of all the various counterfeits on our currency. On closer examination the words "National Union Bank" look dim and unnatural, while in the vignette on the left hand corner of the bill the engraving is coarse and rough. The back is also blurred, but the note is one likely to have an extensive run.

—A singular case of a young lady aged sixteen years, by the name of Anna Brown, residing at Mr. Tipton's, on Walnut street, has been creating great excitement among our citizens during the last week. It is an undisputed and established fact that the girl has a snake, worm, or some such thing in her stomach. Its head has been seen in her mouth a number of times by many people—by twenty or thirty on Sunday last, when, for a brief time, it was out as far as the lips. Doctor Nieschang, the attending physician, was about to grasp it when a movement of the girl, who was in a spasm, prevented, and the opportunity was lost. Doctor Nieschang thinks it is of the tape species, and very long, probably twenty yards. The girl, for some seven years, has been afflicted with spasms of a severe character. By laying the hand on her stomach at times, its terrible motions and contortions can be easily felt. The head of the snake, or worm, is quite black. The usual time for it to make its appearance is about six o'clock in the afternoon. People are constantly coming and going, amounting to several hundred a day. Mr. Tipton is compelled to fasten the door and request people to go away. Doctor Nieschang has confidence that he will succeed in relieving the girl of her disagreeable customer.—*Canton Democrat*.

—A prominent physician writes that the custom of not masticating the food completely is a very common cause of dyspepsia. Before the stomach can act properly on food, mastication is necessary to break the cohesion of the organic matter, in order to aid its solution in the stomach. It extends the surface of the substance to be acted upon by the juices of the stomach, in the same manner as pulverization aids the action of chemical solvents upon common matter. There is also probably some influence of the saliva which mastication mingles with the food, in aiding the solution of solid matters in the stomach, although this is undetermined. At all events, mastication, mechanically considered, assists digestion; and nothing is more likely to act as an injurious irritant to the alimentary canal than unmasticated food.

You May be Too Late.

Be warned in time. Diseases like Indigestion and Dyspepsia are not to be trifled with. There is such a thing as being too late in these matters. Inflammation or Scirrhus Cancer, or some other dangerous disease may ensue, when all restoratives, no matter how potent, would be ineffectual. Do not delay then. When the symptoms of Dyspepsia are first experienced, resort at once to the great restorative medicine, HOSTETTER'S STOMACH BITTERS, and you will be safe. But few disorders involve greater suffering and if not in itself immediately dangerous, it is the source of many deadly maladies. [illegible] the mental and physical misery it produces is alone a sufficient reason why no pains should be spared to prevent or cure it. In no country on the face of the globe is it so completely domesticated as in our own, where it is found in nearly every household. HOSTETTER'S STOMACH BITTERS [illegible] the sovereign remedy for this annoying disease, as they act directly upon the digestive organs, correct and tone the stomach [illegible] to the system, acting delightfully upon the nerves [illegible] medicine as well as a genial stomachic. 525 MILES
OF THE
UNION PACIFIC RAILROAD,
Running West from Omaha,
ACROSS THE CONTINENT
ARE NOW COMPLETED.

This brings the line to the eastern base of the Rocky Mountains, and it is expected that the track will be laid thirty miles further, to Evans Pass, the highest point on the road, by January. The maximum grade from the foot of the mountains to the summit is but eighty feet to the mile, while that of many eastern roads is over one hundred. Work in the rock-cuttings on the western slope will continue through the winter, and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its Six Per Cent. Bonds at the rate of $16,000 to $48,000 per mile, for which it takes a SECOND LIEN as security and receives payment to large if not to the full extent of its claims in services. These bonds are issued as each twenty mile section is finished, and after it has been examined by United States Commissioners and pronounced to be in all respects a first class road, thoroughly supplied with depots, repair shops, stations, and all the necessary rolling stock and other equipments.

The United States also makes a donation of 12,800 acres of land to the mile, which will be a source of large revenue to the company. Much of this land in the Platte Valley is among the most fertile in the world, and other large portions are covered with heavy pine forests and abound in coal of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government, and no more. Hon. E. D. Morgan and Hon. Oakes Ames are Trustees for the Bondholders, and deliver the Bonds to the Company only as the work progresses, so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred Million Dollars, of which over five millions have been paid in upon the work already done.

Earnings of the Company.

At present the profits of the Company are derived only from its local traffic, but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and, as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a GOVERNMENT WORK, built under the supervision of Government officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the Company's

First Mortgage Bonds

Are offered for the present at NINETY CENTS ON THE DOLLAR, they are the cheapest security in the market, being more than 15 per cent. lower than United States Stocks. They pay

Six Per Cent. in Gold,

Or OVER NINE PER CENT. upon the investment, and have thirty years to run before maturity. Subscriptions will be received in Pittsburgh by

JAMES T. BRADY & CO.,
S. McCLEAN & CO., 75 Fourth street,
HART, CAUGHEY & CO., Third and Wood streets,
And KRAMER & RAHM,

And in New York at the Company's Office, No. 20 Nassau street, and by

CONTINENTAL NATIONAL BANK, No. 7 Nassau street.
CLARK, DODGE & CO., Bankers, No. 51 Wall street.
JOHN J. CISCO & SON, Bankers, No. 33 Wall street.

and by the Company's advertised Agents throughout the United States. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A new PAMPHLET AND MAP, showing the Progress of the Work, Resources for Construction, and Value of Bonds, may be obtained at the Company's Offices, or of its advertised agents, or will be sent free on application.

EPHEMERIS.

—Snow is a drug just now in St. Paul.

—Bath, Me., is to have a $75,000 court house.

—Milwaukee's schools cost $65,000 last year.

—One dollar is the price of a Turkish bath in Boston.

—Half the children of Kankakee, Ill., have the scarlet fever.

—Kertsch is to be the Sebastapol of the next Russian war.

—The New York *Mail* calls the rule of three the law of the fates.

—Rosicrucian is the name of the favorite for the next Derby.

—Seven and one-quarter pounds is the weight of an Oregon potato.

—There is a bond of sympathy between Switzerland and Mexico.

—Rents in Albany are to be raised fifty per cent. on the first of May.

—The New York and New Haven Railroad is going to use steel-rails.

—Toledo is to send five delegates to the Manufacturers' Convention in Boston.

—Boucicault received eighteen thousand dollars for "Rip Van Winkle," from Jefferson.

—A Mr. Mahon, of New York, is said to be the most prominent candidate for the Mexican Mission.

—Fifty thousand Arabs in Algeria recently went to their long home on account of the cholera.

—The regular army of Mexico is to be 18,000 men hereafter, and is to cost $4,800,000 per annum.

—The farmers in the neighborhood of Green Bay, Wisconsin, are still suffering greatly for want of water.

—Burglars are troublesome in various parts of Maine. They have them there aged from ten to sixty years.

—Train, the political Cheap John, has gone to Europe again, probably to lay up a new stock of grievances.

—Eighteen and sixteen were the respective ages of a groom and his bride at Brant, Illinois, on Christmas day.

—The Springfield *Republican* thinks it got awful late in Greenfield, Ill., on Thursday, as the town clock struck 720.

—Somebody turned the lights out in Selwyn's theatre, Boston, on Saturday. Screaming, etc., was the consequence.

—One hundred and sixty dollars in gold is the price paid per ton for the new steel rails of the Hudson River Railroad.

—The Durand *Times* says wildcats were never so plenty in Wisconsin as now. They are killed at the rate of a dozen a year.

—A Berlin Professor claims to have discovered the first copy of Faust's Bible, two years older than any other, and containing the printer's autograph.

—An exchange gravely tells its readers that in Chicago all things are possible. An old bull has been playing on the fiddle, and did it very well, too.

—A girl thirteen years old, living in Dayton, has a child six weeks old, her husband is twenty years old, and the whole party looks on life as an excellent joke.

—Rumor says that the Austrian government is endeavoring to prevail on the French Emperor to recognize Senor Juarez as President of the Republic of Mexico.

—Col. Berdan's new fire arm is said to be the most perfect rifle ever yet invented, far outdoing the needle and chassepot guns. The Russian Government thinks of purchasing some.

—Du Chaillu is a wonderful man. He had scarcely gotten back from his perilous explorations in Africa, when he went out to Chicago, and has once more returned to New York in safety.

—The people of Patterson, N. J., are outdoing themselves in rendering aid to the suffering poor. Here is an excellent chance for the people of other places to endeavor to outdo the Pattersonians.

—Semicolonville is the name of a town in Iowa, and an exchange advises the landlords to have the Legislature change the name to Periodville, so that travellers will make a full stop there.

—Valero, the Spanish actor, was recently robbed in Matanzas of a box containing six thousand dollars in gold. The robber left a cigar box containing fifteen thousand dollars in bills, which was beside the gold, behind him.

—A Mr. Schwartz, who has a cigar factory at Troy, N. Y., recently employed a man who did not belong to the Union, consequently all other employees of Mr. Schwartz left. Mr. Schwartz quickly supplied their places, and very peremptorily refused to re-employ them.

—A negro in Milwaukee asked another why he carried a pistol. No. 2 did not like the question, so he fired his weapon at the querist. Nobody was hurt, but there was one black man less in the neighborhood, and the police can't find him. He evidently thinks he murdered his companion.

—For many years we believe there was not a masquerade in this country. Either popular prejudices or popular finances frowned hard enough to keep them down, and it was not until the war opened many stopped up pores and widened out the popular views by opening countless vistas, that they, with many other pomps and vanities, were introduced, and now we read of every small town having its masquerades, as well as its skating parks and rinks. We read in a Wisconsin paper this morning that "grand masquerades" prevail in Michigan, Wisconsin and Minnesota.

—The Fenian parade has excited the Philadelphians to the extent of a couple of columns to each newspaper. On Wednesday everything was Fenian, banners, streamers, sashes, ribbons, all were green, as the grass would have been if it had not feared to show itself to so warlike a procession as was this. Three coffins figured largely in the line and made a very pretty show, and the paraders all seemed quite happy, and were evidently delighted at the fine appearance they made. In fact it was a regular Irish jolification, and when we have said that we have said enough, for every one knows that that is the jolliest of all jollities.

—A man was knocked down and nearly murdered in his own dwelling by a gang of fellows, who gained their entrance into the house by false pretences. They got three hundred dollars, when a woman in the house made so much racket that they ran off. Of course this happened in Chicago, where on the same day, Wednesday, they had a mysterious death of a wealthy Jewess, a case of heartless child abandonment, the arrest of an old Chicago villain who murdered a New York policeman, also the arrest of another of the Ableitner murderers and the full particulars of the great clock factory fire. Happy place Chicago is for newspaper locals.

—The United States Clock Works, situated in Austin, four miles from Chicago, were burned to the ground on Tuesday night. The fire was first discovered in a varnish room, but soon spread and entirely destroyed two large four-story buildings. The company loses by the fire something like $50,000, as the buildings were valued at $175,000 and were insured for $120,000. One four-story building, used as a case manufactory, was saved. Another fire on Wednesday destroyed a cigar and liquor store on Lake street, Chicago. The building and that part of the stock which was destroyed were valued at $35,000, which was pretty well covered by insurance.

—A young lady Good Templar at Bath, Steuben county, the other evening explained her position on the cider question, in conversation with a young gentleman of the same order. "Ah," said she, "I got out of it nicely when he asked me if I drank cider. Of course I answered 'No!' You see since father bought that barrel from Mr. ——, that you like so well, I have always used a straw, for I knew your officers would not ask me anything about sucking."—*N. Y. Herald.*

DR. J. SARGENT'S

FAMILY MEDICINES.

DR. JOHN SARGENT'S

Anti-Dyspeptic and Liver Pills,

A CERTAIN CURE FOR

Liver Complaints, Dyspepsia, Bilious Attacks, Jaundice, Sick Head-Ache, Colds, Costiveness, &c.

THE EXTRAORDINARY AND increasing demand for my ANTI-DYSPEPTIC AND LIVER PILLS, has induced me to make them more public, in order that their usefulness may be more extensive, and would earnestly beg of those who have tried other medicines and not experienced the relief they anticipated, to try, for once, SARGENT'S ANTI-DYSPEPTIC AND LIVER PILLS. There are no other Pills yet compounded which have given such universal satisfaction, nor do any other Pills meet the requirements of the household as do these.

I cannot, of course, enumerate the diseases for which these Pills are beneficial, but whenever a cathartic is necessary, they will effect a speedy and permanent cure. They remove from the blood all corrupt humors, which are always the cause of the disease; they open those excretory vessels which empty into the bowels; they give a healthy action to the liver, enabling it to throw off all corrupt humors; they promote the secretion of bile, aid digestion, purify the blood, and will, in a short time, restore the body to a state of sound health.

DYSPEPSIA.—This distressing malady—so prevalent in our country—is caused by a want of tone in the stomach, the usual symptoms of which are as follows:—A pain of uneasiness from pressure below the sternum or breast bone, sometimes attended with sour eructation (water brash or heart-burn,) a disposition to vomit, flushes of or proceeding from the stomach, instantly circulating through the whole system; loss of memory; a variable, uncertain appetite; great depression of spirits, inclining to melancholy; weariness and great antipathy to exercise.

It is seldom that all the above symptoms are found in the same patient at one time; any of them, therefore, is a sufficient indication of the presence of the disease and need of this medicine.

DR. SARGENT'S ANTI-DYSPEPTIC AND LIVER PILLS, never fail in curing this disease, when taken according to the directions.

I attach a few of the many certificates I could give in such a form as I hope will be satisfactory; but all the certificates I could publish will not inspire half the confidence that one trial will give.

FROM DR. JOHN BUTLER.

LOWELLVILLE, TRUMBULL CO., O.—DR. J. SARGENT—Dear Sir: I regret your want of attention in keeping me supplied with your Anti-Dyspeptic and Liver Pills; they sell so fast in my drug store. I have been using them in my practice also, with the best consequences. I find them the most efficient of any pills I have ever used. I have been frequently astonished at the large amount of bile removed by so small a quantity of pills given. I request you to send me a fresh supply immediately, as I have been sometime without. JOHN BUTLER, M. D.

STEUBENVILLE, OHIO.—DR. SARGENT—I write to request you to send me a box of your Anti-Dyspeptic Pills by mail. I have not been able to get them since I left Allegheny. I cannot do without them; they do me so much more good than any other medicine I ever used. I hope you will send some down to our druggist, so that I can get them when I want. I am sure they will sell fast if known. Your compliance with the above will oblige yours, respectfully,

JANE WARLOW.

ROCK POINT, BEAVER CO., PA., February 21, 1866.—DR. SARGENT—Dear Sir: After suffering for two years with Liver Complaint, attended with bad cough, and trying several remedies, I was induced to try your pills, which relieved me immediately, and I take pleasure in recommending them to all suffering from these complaints. Very truly, yours, D. D. MOBLEY.

ROCHESTER, PA., 1867.—DR. SARGENT—I consider that I owe my life to the use of your pills. Before I began to use them I was going down very fast. My physician had done all he could, and I still got worse; but when I began to take your pills I got better, and I have no need of the doctor. I am now seventy-five years of age.

ABRAHAM WALKER.

This is to certify that I have used Dr. Sargent's Liver Pills in my family for the last two years, and I consider them the best medicine I know of.

J. M. DEVINNY.

New Brighton, Pa., July 1, 1867.

DR. SARGENT'S ANTI-DYSPEPTIC AND LIVER PILLS can be had of all Druggists—both sugar coated and plain. Be sure and call for Dr. Sargent's Anti-Dyspeptic and Liver Pills, and take no other.

DR. SARGENT'S

COUGH SYRUP.

An Old Preparation for the complete cure of COUGHS, COLDS, INFLUENZA, CROUP, DIFFICULTY OF BREATHING, ASTHMA, QUINSY, PHTHISIC, ACUTE AND CHRONIC BRONCHITIS, NIGHT SWEATS, BLEEDING OF THE LUNGS, AND ALL DISEASES OF THE LUNGS, THROAT AND CHEST.

DR. SARGENT'S COUGH SYRUP contains nothing injurious, but can be taken by the smallest infant with perfect safety. It does not dry up a cough as most of the quack preparations do that are now flooding the country, but loosens the phlegm from the mucous surface of the Bronchial tubes, and assists in its expectoration, at the same time allaying the cough and relieving all pain from the chests and lungs.

DR. SARGENT'S COUGH SYRUP is of incalculable benefit in Whooping Cough, subduing it in a few minutes, and specially effecting its radical cure; and for Croup or Hives it is the most efficient and reliable remedy ever yet discovered—one dose taken according to directions often saving the life of the child.

Sold by all Druggists and Dealers in Medicine. Buy a bottle and give it a trial.

DR. JOHN SARGENT'S

Diuretic or Back-ache Pills,

FOR ALL DISEASES OF THE

KIDNEYS AND BLADDER

These Pills have now been before the public in this neighborhood for upwards of thirty two years, during which time they have been eminently successful in the removal and cure of these dangerous and troublesome diseases, which often baffle the skill of the best Physicians. This fact is well attested by the number of wonderful cures they have effected, some of long standing. A sense of duty and the urgent request of those who have experienced the beneficial effects of the medicine, impels me to make it more generally useful, by giving it a much wider circulation. Believing that there is no other medicine published for these complaints that can be carried to every man's door without the aid of a physician; and it is well known that there are thousands who are either too far removed from or are unable to procure the aid of one who will be of service to them.

The disease commonly called Back-ache, and to which these Pills are peculiarly applicable, is found to exist in the aged or infirm, the laborious and the sedentary. It is caused by obstructions or chronic inflammation of the kidneys, ureter, bladder, &c., and is known by a deep-seated pain in the small of the back, sometimes extending round the loins to the abdomen; or a dull, heavy, or numbing pain, extending from the back down the lower extremity of the right abdomen to the inner part of the thigh. Great difficulty is experienced in voiding the urine, and many persons afflicted with this troublesome complaint are unable to endure violent exercise; many, when stooping, have danger in assuming an erect position. Having had numerous opportunities for forty years of testing the virtue and efficacy of this medicine and with the advice of those who have experienced the good effects of it, I now respectfully submit it to the public, believing that it will be generally beneficial. The few certificates I publish are from this immediate neighborhood, and can be referred to at any time.

CERTIFICATES.

SIR—This is to inform you that I was very much afflicted with violent pain in the back, and great difficulty in voiding urine. I was recommended by Mr. McClintock to take some of your Diuretic Pills, which I did, and was perfectly cured, and I have not felt any of the complaint since, being eighteen months.

MERCER COUNTY. JOHN STEWART.

DR. SARGENT—Sir: I have to inform you that I believe I owe my life entirely to taking some of your Pills. I have been taking medicine for several days from my physician without effect, being confined to bed and in great agony, when my husband applied to you and was told by you that I had the gravel. I took the first dose as you directed, and experienced relief, and my disorder left me after taking the remainder.

ALLEGHENY. MARGARET BEAT.

DR. SARGENT—I was for a long time afflicted with what I thought to be rheumatism in my back, so that when I stooped down I could scarcely right myself again. I was advised to try your Pills, which cured me, and I have not felt it since. I have since given a great many away to others, who have found the same benefit.

J. WILLIAMSON.

CROW'S BOTTOM INN.

SIR—I was for a long time afflicted with a pain in my back. I was advised by Mr. Williamson to try your Pills. He gave me some, which completely cured me. I have since obtained two boxes, and gave them to others in our town with the same effect, and if you had charged ten dollars for them I would have paid it cheerfully.

LEWIS HUMISTON.

AKRON, OHIO.

SIR—I have been afflicted with the complaint described in your papers for the last five years, during which time I have tried everything I could hear of without effect, till I met with your Pills. I have now taken half a box, and want more to continue taking them, as I feel better now than I have felt for four years, and I have no doubt the next box will cure me.

J. MILLER.

ALLEGHENY.

SIR—I have been troubled with back ache for four or five years, so that at times I could not rise up or lie down without pain. I took part of a box of your pills, which completely cured me, and I have been in perfect ease ever since. I do, therefore, confidently recommend them to others.

PATRT CRUMPTION.

ALLEGHENY.

DR. SARGENT—SIR: I take this opportunity to state that your Diuretic Pills are the most effectual medicine for the back ache I ever met with. I can confidently recommend them from experience.

Common Pleas—Judges Sterrett, Stowe and Mellon.

In this Court, on Saturday, after the routine business had been disposed of, Judges Stowe and Mellon sat to hear a proceeding in equity—William McClure vs. Thomas Smith and H. H. Finley. The parties to this suit formed a co-partnership on the first of January, 1863, for the purpose of engaging in the coal business. The co-partnership was dissolved in 1864, and a satisfactory settlement of the business was not had. William McClure alleges in his bill of complaint that he was defrauded out of a very large sum of money, in consequence of the manner in which the business was managed and the accounts of the firm kept. It is alleged that Smith made large sales of coal at Louisville, of which he rendered no account to the firm. He is also charged with having exacted more for the use of flats, belonging to himself, than he should have done. The amount claimed by the complainant, as justly and equitably due to him, is between six and seven thousand dollars.

The bill was read by Joseph S. Morrison, Esq., counsel for the petitioner. Thomas M. Marshall, Esq., counsel for the defendants, read the answer to the bill, denying allegations therein set forth, and exhibiting a settlement. It is claimed that the defendant, Mr. Smith, had reserved the right to conduct the coal business on his own account; that the partnership coal sold at Louisville was taken to market at the risk of Thomas Smith alone, and that he was not responsible to the firm for any profits which might have accrued to him in that way.

Mr. Morrison replied to the answer, and read the report of the master, John H. Bailey, Esq., as to the facts in the case. The master found that Thomas Smith was indebted to Wm. McClure in the sum of $629, while the amount claimed is ten times that sum. The case was argued at considerable length, and the Court took charge of the papers.

Quarter Sessions—Judges Sterrett Stowe and Mellon.

William Beebe, convicted of having obtained a quantity of goods by false representations, was sentenced to pay a fine of two hundred dollars and undergo an imprisonment of two months in the county jail.

The grand jury, having completed their labors, reported the fact to the Court, and made a presentment, which was ordered to be filed. The jurors were then discharged with the thanks of the Court. The presentment will be found in another column.

Amusements.

OPERA HOUSE.—Business at the Opera House has been steadily increasing, and the engagement of Lady Don, which closed with the matinee Saturday, was a decidedly profitable one to the manager. The benefit of Harry Hotto Saturday night was well attended. Mrs. Emma Waller is announced for the present week, and makes her appearance this evening as "Elizabeth, Queen of England." Mrs. Waller enjoys a high reputation in her profession, and doubtless will draw full houses during her stay.

ACADEMY OF MUSIC.—Mr. C. D Hess, manager of the Crosby Opera House, Chicago, formerly of this city, has made his arrangements for a short season at the Academy of Music, commencing Monday evening, the 20th instant, when will be presented the grand spectacular drama of "Undine." Mr. Hess' manner of doing things in the amusement line is a sufficient guarantee to the citizens of Pittsburgh that the entertainment will be a brilliant one, and it will doubtless be well patronized. Sale of reserved seats commences Monday, at Mellor's, and those desiring seats should secure them early.

ORPHANS' FAIR.—The Orphans' Fair continues to attract thousands of visitors to the basement of St. Paul's Cathedral, wherein it is held. From the general interest manifested in it since the opening, we are led to think that the receipts will prove very heavy. On Saturday night Jimmy Hamill, our favorite carsman, drew an elegant gold watch; Miss Dunlevy was fortunate in winning the splendid marble clock at the Orphans' Booth. Mr. Charles McKenna carried away, by a large majority, the elegant gold headed cane awarded by vote to the most popular young man. The result complimented a very worthy gentleman who has a host of friends in this community. The raffling will commence to-night and continue during the week.

At a recent meeting of the Duquesne Steam Fire Engine Company the following gentlemen were elected to serve as officers during the ensuing year:

Hough; Committee on Finance, S. Stokes, A. Donnelly, E. Legard, D. Boyd; Committee on Hall, H. S. Maxwell, J. C. Hough, D. Boyd.

Committed.—Gustave Schmidt made information, before Justice Ammon, on Saturday, against Theodore Schmidt, charging him with assault and battery. The accused was arrested, and in default of the required bail for his appearance at court was committed to jail.

Affiliation.—Rose Schrader made oath, before Justice Arent, Saturday, charging Fred. Schaffer with affiliation. He was arrested and after a hearing held in five hundred dollars bail for his appearance at court, in default of which he was committed to jail.

False Alarm.—Between eight and nine o'clock Saturday night an alarm of fire was sounded from box thirty-five, corner of Washington and Wylie streets. The fire department turned out but failed to find any cause for the alarm.

Rights of American Citizens—Meeting at Norwich, Conn.

[By Telegraph to the Pittsburgh Gazette.]

NORWICH, Conn., Jan. 12.—An immense meeting was held on Saturday evening to discuss the question of the rights of naturalized citizens. Resolutions were adopted calling on the Government to recall Charles F. Adams, remove Consuls in Liverpool and Dublin, and use every means used by civilized countries for the protection of their citizens.

—Wm. Cullen Bryant's chirography, as respects illegibility, is second only to that of H. G. Bryant's signature, when executed in hot haste, reminds one of a scorpion suffering from St. Vitus' dance.

—Prince Charles of Hohenzollern was a lieutenant in the Prussian dragoons when Napoleon offered him the Roumanian crown. He asked the advice of King William, who advised him to reject it, but told him to see Bismarck about the matter. The Prince found Bismarck lying on his sofa and smoking a cigar. He did not rise, but told the Prince to take a chair. On being informed of what had been offered to young Charles, he said, "Thunder and lightning! pay no attention to His Majesty's advice, but accept the crown. A throne is not offered every day to a lieutenant of dragoons."

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, December 11, 1868.

Gold opened strong at 138¼, advanced to 138¾, but closed at 137⅞@137⅞. This is an advance during the past week of 5 per cent., the market being 133⅜ on Saturday last, and today had reached 138¾. The advance was entirely unlooked for, and even those who believe ultimately in higher prices acknowledge that the advance was too sudden in the face of the still large disbursements by the Treasury to be permanent, and the beginning of next will witness a moderate decline. It is whispered in well informed circles that this upward movement was originally inaugurated by the cliques men in Washington who had information of the doings of the finance comite. Despite this sudden advance National securities have only declined ⅛ per cent. in London, and have advanced here about one per cent. during the past week.

The advance in Government bonds is the result of the usual accumulation of large balances in the vaults of banks and corporations of eastern cities prior to the annual dividends, which are estimated at about fifty millions, if it was not for the profitable investments otherwise offered, national securities should advance still more. The influx of such vast sums of money will open the doors for wild speculations and already have stocks advanced in value which are known to be worthless. Nearly all our Railroad securities have advanced from 3 to 5 per cent. within a few days, and some of the western shares just begin to find favor with speculators who would not have touched them a month ago.

Mining shares are steadily improving, and nearly all that ever had any place on the stock list are eagerly bought up at correct quotations.

Closing New York quotations, received by Ph. R. Mertz, were as follows:

Gold, 137⅞; 1881's, 109¼; 5-20s, 1862, 108¾; 1864, 106¾; 1865, 107⅛; Consols, 105¾; 10-40s, 102¼; 7-30s, 105¼.

—The unusually light customs revenue in December, with scarcely a fair average of internal tax receipts, caused the public debt to fall short of the month's expenditures by about seven millions of dollars. The expenses of the War Department and the other requisitions on the Treasury, including about $8,500,000 for interest on seven thirties and compounds, exceeded thirty millions of dollars. The funding process has gone on rapidly during the past month, and the funded gold bearing stocks of the United States are now within $110,000,000 of two thousand millions of dollars. The currency balances in the Treasury have been reduced nearly twelve millions, while the Government was in the ownership, at the close of the month, of $88,000,000 in gold, as against $82,000,000 at the close of November. By the close of the present month the amount owned by the Government will probably be down to about $79,000,000—allowing $30,000,000 for all January gold payments and $12,000,000 for customs receipts.

—By the recent report of Mr. Wells, special commissioner of the revenue, we have the following figures for the fiscal year ending June 30, 1867, in relation to the receipts and disbursements of the Treasury:

Total receipts from internal revenue	$266,027,537 43
From customs, gold	176,417,810 88
From public lands	1,163,575 76
From direct tax	4,200,233 70
From miscellaneous, premium on gold, &c.	42,824,852 50
Total revenue for the year	$490,634,010 27

The total expenses of the Treasury for the year were $346,729,129 33; including $143,781,591 paid as interest on the public debt, and over 11 millions for bounties. The excess of revenue over the expenses was $143,904,880 94. Of this nearly 106 millions went toward the reduction of the principal of the public debt, and about 38 millions were added to the cash balance. The ordinary expenses might very well, with a proper economy, be brought considerably within 100 hundred millions, thus reducing by one half the outlay under this heading. The average corresponding expenses of the treasury before the war were less than 50 millions per annum. The increase to nearly 200 millions is totally unnecessary, and would never be permitted if the eyes of the people were not blinded by issues which have no proper bearing on this question.

—We clip the following from the Venango Citizen, published at Franklin: The new well on the People's Petroleum Company's tract is now producing at the rate of three hundred barrels per day. This is the largest producing well on Oil Creek, and the third largest in the oil regions. It was struck on New Year's day.

A new well was struck a few weeks since on the oil landing of S. M. Kier & Co., at Oil City. The production is now stated to be fifteen bbls per day. The well at Stiverlyville, on the Allegheny River, a short distance above Oil City, has been shut down for the winter.

—Says the Philadelphia *Ledger*, of Friday: There is no essential change in the general features of the money market. Capital continues in good supply for temporary use, and borrowers find no difficulty in obtaining needed accommodations by call loans upon acceptable securities at 6 and 7 per cent. The range of discount for mercantile paper is 8@9 per cent per annum for the best signatures, and 9@10 per cent. for selections from other good names.

—The Chicago *Tribune*, of Friday, says: Owing to the severity of the "cold snap," business on the street was exceedingly dull, and at the banks the same state of affairs prevailed. The counter business was reported very dull, and there was a falling off in the applications for accommodation. There was, however, no change in the financial situation. The money market is close, and in some quarters quite stringent, still the banks are doing their best to accommodate customers in good standing.

PITTSBURGH METAL MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, January 11, 1868.

There is no improvement to note in the general tone of the iron trade. Stocks of desirable grades of standard forge descriptions continue comparatively light, and prices are maintained; but in medium and inferior grades, concessions have to be made in order to effect sales. For Foundry iron, the market is excessively dull, and under the influence of heavy receipts and a pressure to sell, a heavy decline in Hanging Rock descriptions has taken place. We quote the following sales:

Pork Packing in the West.

The Cincinnati *Gazette*, of Thursday, says: The packing in the west up to the present date compares with the total packing last season, as follows:

	1867-8.	1866-7.
Cincinnati	337 718	403,610
Chicago	640,000	666,000
St. Louis	221,000	170,875
Louisville	143,000	171,428
Interior points	980,000	985,000
Total	2,281,718	2,424,813

The estimate of the packing at interior points is rather under than over the actual packing, so that not more than 125,000 hogs have to be packed to reach last year's figures.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, January 11, 1868.

The general markets have again been dull during the past week, and as the demand for nearly everything is restricted to supplying immediate wants, we have but few round lot operations to report. In prices, there has been no important changes, with the exception of Flour, which has advanced from fifty to seventy-five cents per bbl.

GRAIN—Winter Wheat is in good decided demand and in limited supply; we continue to quote at $2,85 for Red, and $2,65 for White. Barley is scarce and in demand at $1,65 for Spring, and $1,70@1,75 for Fall. Corn is in good supply and dull but unchanged; we continue to quote new Ear at 90@95c, on wharf. Oats is rather better demand and a shade firmer; sales in store at 67@68c. Rye is still quoted at $1,40@1,45.

FLOUR—Is firm, especially Spring Wheat brands, which are quoted stiff at the advance. Sales in store at $11@11,50 for Spring; $12@12,50 for Winter, and $14,50@15,50 for fancy brands. Rye Flour, $8.50. Buckwheat is plenty and dull at $5 per cwt.

PROVISIONS—Bacon is quiet but steady, with regular jobbing sales at 11c@11½c for Shoulders; 13@13½c for Ribbed Sides; and 16¼@17c for Sugar Cured Hams. Lard may be quoted at 13@13½c, in tierces and barrels, and 13½@14c, in kegs. Mess Pork is nominal at $21 for old, and $22 for new.

DRESSED HOGS—In consequence of the material falling off in the arrivals, the market is firmer, and prices have advanced to 9@9½c, for fair to good averages.

LARD OIL—Is still quoted by manufacturers at $1c for No. 2, and $1,08 for No. 1.

BUTTER—The demand for prime to choice Roll is rather better, and the market may be quoted firmer at 38@40c.

EGGS—Firm at 38@40c.

APPLES—There is a continued fair demand and the market is steady with regular sales at $3@$4,50 per bbl, as to quality.

POTATOES—Quiet but unchanged; we continue to quote at $1@1,10 per bushel, and $3,25@3,50 per bbl, as to quality.

DRIED FRUIT—In good supply and dull but unchanged; small sales at 7@8c for Apples, and 10@12½c for Peaches.

CRANBERRIES—In rather better demand, and we can report sales of Cultivated at $13@15 per bbl, as to quality.

SEEDS—As yet there seems to be no demand whatever for either Clover or Timothy Seeds. Flaxseed is in demand at $2,30@2,35, and scarce.

HOMINY—Is being sold at $7 per bbl, to the trade, and $7,50, in a small way.

BEANS—Dull but unchanged; small sales at $3@3,25.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, January 11, 1868.

CRUDE—There was not a single sale to-day, at least we had none reported, and while the market is quiet and apparently dull, there is no disposition manifested on the part of holders to make concessions in order to effect sales. Spot oil may be fairly quoted at 6¾@7c, and while the demand is only moderate, the offerings are light, as holders do not seem very anxious to enter into new contracts at present prices. There seems to be considerable inquiry for March and April, seller's option, and we heard of offers to buy at 7½c, and offers to sell at 8c. The fact that navigation is again suspended, has a tendency to stiffen the market a little, as it will diminish materially the receipts, and thereby cut down the supply; and it appears that our refiners prefer to buy in bulk boats rather than in tank cars. The sales during the week have been comparatively light, in the aggregate, and while there is evidently a firmer feeling, there is no quotable change in prices.

REFINED—The market for bonded oil is quiet but firm, at previous prices. There is still some inquiry both for present and future delivery, but the fact that our refiners cannot sell at prevailing figures and 'come out even' retards business and restricts operations; and to this may be attributed the very light volume of business during the past week, and we cannot reasonably look for any material improvement until there is a reaction and better prices. We heard of offers to buy at 23c for this month; 23½c for February, and 24c for March. The project on the part of our refiners to go into the fifteen day option arrangement is a good one, if faithfully carried out, and will do much toward the driving out of the trade a lot of "scalawags," whose motto is, "heads we we win—tails you lose"—and the sooner the better.

RIVER NEWS.

The river continues to recede steadily at this point with five feet in the channel by the Monongahela marks last evening. The weather continues cold and cloudy, and at 3 p. m. yesterday the mercury was only fifteen degrees above zero. The Allegheny River is entirely closed above the Mechanic Street Bridge, the ice having gorged between the piers.

The Armenia, from Cincinnati, and the J. N. McCullough, from Parkersburg, are the only arrivals we have to report, and the Yorktown, for Cincinnati and Louisville, was the only transient departure.

Private telegrams report the arrival of the Great Republic at Cincinnati on Saturday. It was the intention of Captain Donaldson to leave again on Saturday night, being apprehensive that by delaying too long he might have trouble in getting back over the falls.

Mr. John Wherry, a well known steamboat clerk, but who for some time past has been engaged in the mercantile business at St. Louis, is here on a visit to his friends. Mr. W. done his last steamboating on the Rate Robinson.

The Delaware, Capt. Richard Calhoun, is announced to leave for Nashville to-morrow without fail, and passengers and shippers should bear this in mind. The Columbia, Captain G. W. Reed, will load for same point after the Delaware.

The Messenger, Capt. Jesse Dean, is now the only boat loading for St. Louis, and the Leonidas, Capt. Shedden, will be the first boat out for New Orleans.

The Kate Robinson, Capt. Robt. Robinson, will commence loading for Cincinnati and Louisville this morning, and it is expected that she will be ready to leave on Wednesday. She has the most of her cargo already engaged.

We learn from our Cincinnati exchanges of Saturday that the Great Republic has deferred her departure until Tuesday, the 14th.

In reference to the cause of the explosion of the Harry Dean's boilers, the Marietta *Register*, of Thursday, says:

We are unable to discover any cause for the explosion, or any blame on the part of the officers and crew. The engineer on the watch was James Chamberlain, a careful man. He has asked an investigation. The boilers passed inspection at Cincinnati only a few weeks ago, and it is claimed that she was now carrying only 105 pounds of steam, or about 40 lbs less than allowed by law. The boilers had just been "guaged" and found full.

ST. LOUIS, January 10.—The Lorena has some freight here, and was to go at noon yesterday for Carondolet, to fill out with iron ore for Pittsburgh, but Captain Shuman decided to remain here and wait for a change in the weather. Wm. Long, a well-known steamboat mate, died here yesterday morning. He was a native of Newfoundland. Capt. Overton is wrecking the Nora and Mariner in the Missouri River, near Omaha. The ferry boats can not cross the river, owing to the floating ice, which moves slowly, threatening to a halt. No mail is being sent one way or the other over the river, and travelers and merchandise find the river an effectual barrier to their progress. Weather moderating.

To Mr. W. S. Dravo, clerk of the Importer, we are indebted for an advance copy of her cargo manifest. Here it is:

CINCINNATI, January 9, 1867.—Spencer & McKay, 36 empty ale bbls; Fry & Scott, 28 bbls clay; Armstrong, Bros. & Co., 8 bbls bungs; Fulton, Bollman & Co., 36 bales hemp; T. Coffin, 108 bbls clay; B. A. Fahnestock, Son & Co., 75 bbls barytes, 5 bbls seed; Wm. Bingham, 43 do clay; Bryce, Walker & Co., 518 do sand; I. Dickey, 1 do nuts, 2 do dried fruit; R. T. Kennedy & Bro., 243 sks wheat; Clark & Co., 720 sks corn. 74 oil bbls for Parkersburg; lot sash for Marietta; 218 oil bbls for Smith's Ferry; 6000 fire brick for Rochester.

WM. S. DRAVO, Clerk.

The Glendale and Importer left Cincinnati for Pittsburgh on Thursday, and the Armenia, en route from St. Louis to this port, passed Cairo the same day. The Lawrence was advertised to leave Cincinnati for Pittsburgh on Friday.

We take the following item from the Zanesville *Courier*, of Tuesday: A merchant in this city shipped, on the 27th of November last, a lot of produce to Pittsburgh, by railroad, which had not arrived at its destination on the 5th inst. A month and nine days *in transitu*, might reasonably be called slow time, with a due regard for the truth.

The Vicksburg *Times* distinguishes an Upper Ohio river steamer by the plows on her roof. In this connection a Memphis paper says:

The plow business will not be found as profitable as heretofore. The plantations are now overstocked with implements of the kind, as can undersell all new comers, in what can be spared without the slightest inconvenience from the year's crop of cultivation.

The Cincinnati *Gazette*, of Friday, says: The Glendale left for Pittsburgh last evening. She will immediately load for St. Louis. Crane and Whitten are her pilots. The Importer, towing the barge George Dickinson, arrived from St. Louis yesterday morning, and put off 80 tuns here. She had already discharged 40 or 50 tuns at Louisville. She has for Parkersburg 74 empty oil barrels; for Marietta, a lot of sash; for Rochester, 6,000 fire brick; for Smith's Ferry, 218 empty oil barrels, and for Pittsburgh, 350 tuns of miscellaneous freight. She reloads at the latter place for St. Louis.

Captain George E. Wilkinson, of New Orleans, has sold the Flicker and purchased the Cuba No. 2.

The St. Mary is having her guards strengthened at New Orleans for carrying cotton, and she enters the Ouachita trade.

The Memphis dry docks were sold, under a deed of trust, to Capt. Knott, for five thousand dollars.

The damage incurred by the new steamer Governor Allen was more serious than at first reported. It was found, upon examination, that 150 timbers were broken.

We learn from Shreveport that cotton is rapidly accumulating at that place, in consequence of the scarcity of boats of light draught. Boats can obtain as much freight to and from Shreveport as they can carry.

D. G. Brent, local reporter of the Mobile *Times*, was in a boat in the bay recently, when a steamer ran him down and nearly broke his back. He is confined to his bed, but got a good item.

The steamer Gossamer left Shreveport a few days since for New Orleans; one item of the cargo consisted of 1000 turkeys. These turkeys were driven in two droves all the way from Kaufman Co., Texas.

The Empire, which was sunk below Columbus Monday night, was raised Tuesday, and is now on the docks at Cairo, where she will be overhauled and repaired. Her freight will be saved in a slightly damaged condition.

The towboat I. N. Phillips arrived at Nashville Tuesday with three barges of coal, containing nine thousand bushels from the mines on the upper Cumberland.

The New Orleans *Crescent* says the Cleona, we are informed, changed ownership yesterday the purchasers being Captains L. S. Greenlee and L. H. Patterson. The Cleona will go into the Bayou Macon and Texas trade, as soon as water permits.

A Cairo correspondent, under date of January 7, writes as follows: The Great Republic has arrived at last, bringing the largest load which has ever been brought up from New Orleans by any one steamer. She had 1987 tons on board when she left port, but began meeting such heavy drift below Memphis as to endanger her guards, which were touching the water. Under such circumstances Captain Donaldson deemed it advisable to give 100 tons of Cairo freight to the steamer Mepham, in order to relieve her guards from the drift. The principal items of her cargo are as follows: Sugar, 1645 hhds; molasses, 1659 bbls 338 half bbls; scrap iron, 150 tons; hides, 1400 pkgs.

A St. Louis telegram, under date of Thursday, says: River falling, having declined two feet in 36 hours. A gorge is supposed to have formed 30 miles above here. Cold, thermometer 10 degrees above zero. There is less than 4 feet water to Cairo. The Lorena is about starting for Pittsburgh. It is determined to run this year 6 steamers of the late Dubuque and St. Paul line between St. Louis and St. Paul, in opposition to the Northern Line.

MEDICAL.

A GREAT CURE OF ASTHMA.

I feel myself under obligations to you, as well as a duty I owe to others who have been like sufferers with myself, in order that they may know where they can get cured. I had been subject to violent, continued attacks of ASTHMA for more than six years, and had been to great expense and to various medical men of experience without obtaining any permanent relief, if relieved at all. I was so bad that I never knew what it was to be free from the disease. I had to sit up in bed every night for weeks and weeks, without any prospect or hope of cure. My condition was such that I felt life a burthen, and when I got an attack I felt in danger of suffocating every moment. So terrible had been my suffering that my mother says that she has seen me so near suffocation that I was nearly black in the face from the desperate efforts made to get breath. In the cold winter nights, many a night, with the doors and windows of the house thrown wide open, in order to hinder the apparent danger of strangulation. In this condition, on the 13th of October, 1866, having heard of DR. KEYSER'S skill in curing this disease, I called on him, in company with my husband, Joseph Meyers, but I must confess, with a great deal of doubt as to effecting a permanent cure. Dr. KEYSER examined me carefully, and my lungs all over, with his LUNG SOUND, and told me that with care I would get well. I persevered with his medicines for over a year, and am to-day in vigorous health, and TOTALLY FREE FROM THE ASTHMA, and its terribly disagreeable attendants. I have had, once in awhile, a slight attack of the disease, but I regard my cure as entirely re-established, and if I do have any attack, a few doses of the Doctor's medicine immediately relieves it. I cannot feel too thankful for the exemption from a disease which used to cost me whole weeks and months of loss of sleep, besides suffering which none but those who are subject to this disease can fully appreciate or describe.

NANCY MEYERS.
MARY MOUNT JOY, (her mother.)
GEORGIANA FISHER.

Birmingham, Dec. 9, 1867.

The cure of Mrs. Myers, recited above, is one of more than ordinary importance, because of the violence of the attacks their continued length, and the great prostration of all the vital powers attending the disease. Any one who knew her during the time she was a sufferer from the disease of which she was cured, and will look at her now, the very picture of robust health, cannot but admit that the cure is one of more than ordinary character, inasmuch as we hear of Asthma every day of our lives, being a disease of an incurable nature. Let those who doubt investigate for themselves.

SIGHT RESTORED.

The case to which we alluded some weeks ago, of Christiana Fisher, of Beaver county, is now entirely confirmed by the appearance of Miss Fisher herself, who to-day called on DR. KEYSER in person, to thank him for his kindness and skill in restoring her to ENTIRE AND PERFECT SIGHT. Miss Fisher had been nearly blind for four months. She was so blind that she could not distinguish any object so as to make out what it was. The case is remarkable, as hundreds of cases like her's are doomed to never-ending darkness, on the flimsy pretext that there is no cure, and nothing can be done. She was under DR. KEYSER'S treatment for two months, and before she applied to him, through her brother, SIMON P. FISHER, slight hopes were entertained of her ever getting her sight. Her case is well known in the neighborhood where she resides, and has been regarded as one of extraordinary recovery.

We, the undersigned, know of the cure of Miss Fisher, and bear willing testimony to the fact above stated.

The case above referred to was entirely cured by medicines to purify the blood, and it is witnessed by scores of persons who have known Miss Fisher, and have a knowledge of her total restoration to health, and the recovery of her sight, as the accompanying letter of her brother sets forth:

DR. KEYSER—This is the list of names that have to your advertisement of the cure of my sister, Christiana Fisher. They were all willing to put their names down and were very much astonished to see that you brought her sight so soon. My mother sends her thanks to you; she says "you are one of the greatest men in the world." She says if we had not come across you she believes her child would not be living at this time. We all join in sending our love and respects to you.

PULMONARY CONSUMPTION, RESULTING FROM PLEURISY, CURED.

Statement of George Ford, carpenter, of No 16 Sampson street, Allegheny City:

I took a violent attack of pleurisy, in May, 1866, which left me with a cough lasting all summer, wearing away my strength and gradually undermining my health. During this attack of pleurisy I had several physicians of the highest reputation in the city. After I had partially recovered from the pleurisy, I was advised to go into the country, which I did, and when there a called in a doctor, who told me my left lung was affected, and that if something were not done soon I would die of CONSUMPTION. I lingered on from this time until about the middle of June, my cough and lung disease gradually growing worse, and I weaker every day, and almost despairing of ever getting well. In this state of despondency, and knowing the general belief of the incurability of Consumption, and having heard of cures made by DR. KEYSER, and seeing his advertisement in the newspapers, I was induced in October last to call on the Doctor at his office, 120 Penn street, and had him examine my lungs with his "LUNG SOUND." He told me the upper lobe of my left lung was very much diseased, but he thought with great care and the perseverance in the use of his medicines, I would get well. At the time I called on Dr. Keyser my pulse was over one hundred and thirty beats in a minute, and I was generally prostrated, and had to cough night and day. I commenced the Doctor's treatment in October, with a feeble, broken constitution, and continued it faithfully until the present time. The Doctor's medicines helped me from the very start, and I could gradually feel myself getting stronger, and my cough and expectoration lessening. I have gained greatly in flesh, and consider myself well; all the rattling of my lung has ceased, and my general health is in every way good. All my relatives and friends know of the advanced stage of my disease and my extraordinary recovery. One of the medicines given me by Dr. Keyser was a medicine called LUNG CURE, which I took in connection with the other treatment.

GEORGE FORD.

PITTSBURGH, March 30, 1867.

ANOTHER CURE OF CONSUMPTION.

STATEMENT OF JOHN G. WIGHAM, OF TURTLE CREEK, ALLEGHENY COUNTY.

I was discharged from the United States army in January, 1866, on account of a wound in the head, from a shell, and a disease which the army physicians pronounced CONSUMPTION. I had a terrible cough and fell away in strength and flesh and was unable to do anything. Shortly after my return from the army, I made application to a physician of my neighborhood and, afterwards, to another in Pittsburgh of high reputation, whose remedies I used faithfully for five months, without any benefit whatever, but rather grew worse, and wasted in flesh and strength every day. In August, 1866, my mother took me to DOCTOR KEYSER, of 120 Penn street, whose skill in such cases like mine had been highly spoken of and put myself under his treatment. The Doctor examined my lungs very carefully with his LUNG SOUND, and told me that my left lung was badly diseased at the upper part, but if I was careful he thought he could cure me by following his directions closely, which I did from that day to this. I gradually improved under Dr. Keyser's medicines from the first week I commenced to take them, and my general health has improved and my chest, where it was sunken away, and where it pained me, has become full and strong and free from pain. I can now do a full day's work, and take great pleasure in giving my testimony in favor of Dr. Keyser's treatment and medicines.
